**NIH Sexual & Gender Minority Research Office**

The Sexual and Gender Minority Research Office coordinates sexual and gender minority-related research and activities by working directly with the NIH Institutes, Centers, and Offices. “Sexual and gender minority” is an umbrella phrase that encompasses lesbian, gay, bisexual, and transgender populations as well as those
whose sexual orientation, gender identity and expressions, or reproductive development varies from traditional, societal, cultural, or physiological norms.

**Wayne F. Placek Award, American Psychological Foundation**

Encourages scientific research to increase the general public’s understanding of homosexuality and to alleviate the stress that gay men and lesbians experience in this and future civilizations.

**Williams Institute Small Research Grants**
The Williams Institute’s Small Research Grants program is designed to encourage new empirical research focused on the LGBT population. Applicants from a variety of disciplinary backgrounds, including social sciences (e.g., economics, sociology, demography, social psychology), law, public health, and public policy are encouraged to apply. An important objective of this funding is to encourage new scholars to enter LGBT research areas.
