WEBVTT

- NOTE duration:"00:17:00.3310000"
- NOTE language:en-us
- NOTE Confidence: 0.7464141

00:00:00.000 --> 00:00:01.650 My name is Jenny Clem.

NOTE Confidence: 0.7464141

 $00{:}00{:}01{.}650 \dashrightarrow 00{:}00{:}04{.}582$ I work at Iris as the reception

NOTE Confidence: 0.7464141

 $00{:}00{:}04.582 \dashrightarrow 00{:}00{:}06.367$ and placement manager.

NOTE Confidence: 0.7464141

00:00:06.370 --> 00:00:08.280 I oversee case management for

NOTE Confidence: 0.7464141

 $00{:}00{:}08.280 \dashrightarrow 00{:}00{:}10.633$ the first three months that a

NOTE Confidence: 0.7464141

00:00:10.633 - 00:00:12.478 refugee arise into the country,

NOTE Confidence: 0.7464141

00:00:12.480 --> 00:00:14.755 so thank you so much Maya for

NOTE Confidence: 0.7464141

00:00:14.755 --> 00:00:17.161 setting the stage for the current

NOTE Confidence: 0.7464141

 $00{:}00{:}17.161 \dashrightarrow 00{:}00{:}18.977$ state of refugee resettlement.

NOTE Confidence: 0.7464141

 $00:00:18.980 \longrightarrow 00:00:21.632$ I've been asked to speak to

NOTE Confidence: 0.7464141

 $00{:}00{:}21.632 \dashrightarrow 00{:}00{:}24.200$ the effects that Covid has had.

NOTE Confidence: 0.7464141

 $00:00:24.200 \longrightarrow 00:00:25.744$ On a local level,

NOTE Confidence: 0.7464141

 $00{:}00{:}25.744 \dashrightarrow 00{:}00{:}27.674$ as relates to refugee resettlement,

NOTE Confidence: 0.7464141

 $00:00:27.680 \longrightarrow 00:00:29.740$ both generally and then more

 $00:00:29.740 \longrightarrow 00:00:31.800$ specifically as relates to health

NOTE Confidence: 0.7464141

 $00:00:31.873 \rightarrow 00:00:33.549$ related challenges observed by

NOTE Confidence: 0.7464141

00:00:33.549 --> 00:00:36.063 both Iris staff and our partners

NOTE Confidence: 0.7464141

 $00:00:36.133 \dashrightarrow 00:00:38.128$ at Yale Refugee Health Clinic.

NOTE Confidence: 0.7464141

 $00:00:38.130 \longrightarrow 00:00:39.996$ As well as how we've sought

NOTE Confidence: 0.7464141

 $00:00:39.996 \longrightarrow 00:00:41.240$ to address these challenges.

NOTE Confidence: 0.7464141

00:00:41.240 --> 00:00:43.445 So I'll jump right in with talking

NOTE Confidence: 0.7464141

 $00:00:43.445 \dashrightarrow 00:00:45.357$ about the variety of factors that

NOTE Confidence: 0.7464141

 $00{:}00{:}45.357 \dashrightarrow 00{:}00{:}47.471$ have been at play with the effects

NOTE Confidence: 0.7464141

 $00{:}00{:}47.541 \dashrightarrow 00{:}00{:}49.655$ Covid has had on the populations that

NOTE Confidence: 0.7464141

 $00{:}00{:}49.655 \dashrightarrow 00{:}00{:}52.920$ we serve and the work that we do.

NOTE Confidence: 0.7464141

00:00:52.920 --> 00:00:53.332 Anne,

NOTE Confidence: 0.7464141

 $00{:}00{:}53.332 \dashrightarrow 00{:}00{:}54.980$ there's definitely been a

NOTE Confidence: 0.7464141

 $00{:}00{:}54.980 \dashrightarrow 00{:}00{:}57.040$ cultural aspect to covid there's,

NOTE Confidence: 0.7464141

 $00:00:57.040 \longrightarrow 00:00:57.952$ you know,

 $00:00:57.952 \rightarrow 00:01:00.232$ there's certainly been caution and

NOTE Confidence: 0.7464141

 $00:01:00.232 \dashrightarrow 00:01:03.220$ fear expressed by a lot of our clients.

NOTE Confidence: 0.7464141

 $00:01:03.220 \longrightarrow 00:01:05.686$ And yet at the same time,

NOTE Confidence: 0.7464141

 $00{:}01{:}05{.}690 \dashrightarrow 00{:}01{:}07{.}766$ there seems to be a noticeable

NOTE Confidence: 0.7464141

00:01:07.766 --> 00:01:10.238 amount of clients who have continued

NOTE Confidence: 0.7464141

00:01:10.238 --> 00:01:12.278 to interact between households,

NOTE Confidence: 0.7464141

 $00{:}01{:}12.280 \dashrightarrow 00{:}01{:}15.028$ putting themselves at a higher risk

NOTE Confidence: 0.7464141

 $00{:}01{:}15{.}028 \dashrightarrow 00{:}01{:}17{.}754$ for covid some cultural anecdotes of

NOTE Confidence: 0.7464141

 $00{:}01{:}17.754 \dashrightarrow 00{:}01{:}20.582$ dynamics at play that I find helpful NOTE Confidence: 0.7464141

 $00{:}01{:}20{.}582 \dashrightarrow 00{:}01{:}23{.}784$ or have found helpful in in this time.

NOTE Confidence: 0.7464141

 $00{:}01{:}23.790 \dashrightarrow 00{:}01{:}26.112$ And things that have been observed NOTE Confidence: 0.7464141

 $00:01:26.112 \longrightarrow 00:01:28.849$ by some of our case managers.

NOTE Confidence: 0.7464141

 $00:01:28.850 \longrightarrow 00:01:30.428$ Will hopefully give give us a

NOTE Confidence: 0.7464141

00:01:30.428 --> 00:01:32.493 little bit of a sense of the

NOTE Confidence: 0.7464141

 $00{:}01{:}32{.}493 \dashrightarrow 00{:}01{:}34{.}068$ perspectives that are at play.

NOTE Confidence: 0.7464141

 $00:01:34.070 \longrightarrow 00:01:34.620$ For example,

- NOTE Confidence: 0.7464141
- $00{:}01{:}34.620 \dashrightarrow 00{:}01{:}37.180$ one one of our Afghan clients said to one

 $00{:}01{:}37.180 \dashrightarrow 00{:}01{:}39.580$ of our case managers when she was explaining.

NOTE Confidence: 0.7464141

00:01:39.580 --> 00:01:42.480 You know, I'm not going to go into your home.

NOTE Confidence: 0.7464141

 $00:01:42.480 \longrightarrow 00:01:44.220$ We're going to talk about this

NOTE Confidence: 0.7464141

 $00{:}01{:}44.220 \dashrightarrow 00{:}01{:}45.090$ on the sidewalk.

NOTE Confidence: 0.7464141

 $00:01:45.090 \rightarrow 00:01:46.540$ His response was were Afghans.

NOTE Confidence: 0.7464141

00:01:46.540 --> 00:01:49.066 We can't get Covid covid just

NOTE Confidence: 0.7464141

 $00:01:49.066 \rightarrow 00:01:50.750$ happens to other people.

NOTE Confidence: 0.7464141

 $00{:}01{:}50.750 \dashrightarrow 00{:}01{:}52.074$ Another another an ecdote was

NOTE Confidence: 0.7464141

00:01:52.074 --> 00:01:54.060 you know a client saying well,

NOTE Confidence: 0.7464141

 $00{:}01{:}54.060 \dashrightarrow 00{:}01{:}56.708$ as long as you have a clean heart,

NOTE Confidence: 0.7464141

00:01:56.710 --> 00:01:58.696 you won't get sick and this

NOTE Confidence: 0.7464141

 $00:01:58.696 \rightarrow 00:02:00.922$ was in reference to, you know,

NOTE Confidence: 0.7464141

 $00{:}02{:}00{.}922 \dashrightarrow 00{:}02{:}03{.}177$ having like a clean conscience.

NOTE Confidence: 0.7464141

 $00{:}02{:}03.180 \dashrightarrow 00{:}02{:}05.796$ And I think there's also just a general

00:02:05.796 --> 00:02:07.799 pressure to provide hospitality,

NOTE Confidence: 0.7464141

 $00:02:07.800 \longrightarrow 00:02:10.668$ and that this may be cultural

NOTE Confidence: 0.7464141

00:02:10.668 --> 00:02:13.125 pressure can often outweigh the

NOTE Confidence: 0.7464141

 $00:02:13.125 \longrightarrow 00:02:15.855$ health risks involved in doing so.

NOTE Confidence: 0.7464141

 $00{:}02{:}15.860 \dashrightarrow 00{:}02{:}17.590$ We've also definitely seen an

NOTE Confidence: 0.7464141

 $00{:}02{:}17.590 \dashrightarrow 00{:}02{:}19.320$ economic impact on our clients.

NOTE Confidence: 0.7464141

 $00{:}02{:}19{.}320 \dashrightarrow 00{:}02{:}20{.}756$ They've struggled financially because

NOTE Confidence: 0.7464141

 $00{:}02{:}20.756 \dashrightarrow 00{:}02{:}23.616$ many of the sectors that they work in

NOTE Confidence: 0.7464141

 $00:02:23.616 \dashrightarrow 00:02:25.548$ have been affected by economic closures,

NOTE Confidence: 0.7464141

 $00:02:25.550 \longrightarrow 00:02:26.699$ which makes sense,

NOTE Confidence: 0.7464141

 $00:02:26.699 \rightarrow 00:02:27.082$ right?

NOTE Confidence: 0.7464141

 $00{:}02{:}27.082 \dashrightarrow 00{:}02{:}30.292$ A lot of the jobs that our clients

NOTE Confidence: 0.7464141

 $00:02:30.292 \longrightarrow 00:02:32.782$ are eligible to work for when

NOTE Confidence: 0.7464141

 $00:02:32.782 \longrightarrow 00:02:35.129$ they first arrived to the US.

NOTE Confidence: 0.7464141

 $00:02:35.130 \longrightarrow 00:02:36.985$ Not the types of jobs that can

NOTE Confidence: 0.7464141

 $00:02:36.985 \rightarrow 00:02:38.198$ easily shift their employees

- NOTE Confidence: 0.7464141
- $00:02:38.198 \longrightarrow 00:02:39.626$ to to working remotely.

 $00:02:39.630 \longrightarrow 00:02:41.334$ Oftentimes their frontline workers,

NOTE Confidence: 0.7464141

 $00{:}02{:}41.334 \dashrightarrow 00{:}02{:}43.890$ essential workers who have to be

NOTE Confidence: 0.7464141

 $00:02:43.958 \longrightarrow 00:02:46.528$ onsite to do to do the work that they do.

NOTE Confidence: 0.7464141

00:02:46.530 --> 00:02:47.054 Ann,

NOTE Confidence: 0.7464141

 $00:02:47.054 \rightarrow 00:02:50.722$ and so we've definitely seen as well

NOTE Confidence: 0.7464141

 $00{:}02{:}50{.}722 \dashrightarrow 00{:}02{:}54{.}013$ as social and emotional impact that

NOTE Confidence: 0.7464141

 $00{:}02{:}54.013 \dashrightarrow 00{:}02{:}57.842$ our clients have had as as result

NOTE Confidence: 0.7464141

00:02:57.842 --> 00:02:59.851 of covid And there's definitely

NOTE Confidence: 0.7464141

 $00{:}02{:}59{.}851 \dashrightarrow 00{:}03{:}01{.}159$ been an increased isolation.

NOTE Confidence: 0.7464141

 $00:03:01.160 \dashrightarrow 00:03:03.295$ A lot of our clients have expressed

NOTE Confidence: 0.7464141

00:03:03.295 --> 00:03:05.738 just a sense of loss of community that

NOTE Confidence: 0.7464141

 $00:03:05.738 \longrightarrow 00:03:08.390$ they used to be able to receive by

NOTE Confidence: 0.7464141

 $00:03:08.390 \dashrightarrow 00:03:10.634$ being physically present at our office.

NOTE Confidence: 0.8653719

00:03:10.640 --> 00:03:13.412 And we, you know, have had to close our NOTE Confidence: 0.8653719

 $00:03:13.412 \rightarrow 00:03:15.867$ office to the public during this time,

NOTE Confidence: 0.8653719

 $00{:}03{:}15.870 \dashrightarrow 00{:}03{:}19.022$ and that just results in a general loss

NOTE Confidence: 0.8653719

 $00{:}03{:}19{.}022 \dashrightarrow 00{:}03{:}21{.}637$ of connectedness between staff and clients

NOTE Confidence: 0.8653719

 $00{:}03{:}21.637 \dashrightarrow 00{:}03{:}24.259$ when we're not physically present in

NOTE Confidence: 0.8653719

 $00:03:24.331 \longrightarrow 00:03:26.932$ the same space on a day to day basis.

NOTE Confidence: 0.8653719

 $00{:}03{:}26{.}940 \dashrightarrow 00{:}03{:}29{.}236$ And we've been able to adapt our

NOTE Confidence: 0.8653719

 $00:03:29.236 \rightarrow 00:03:31.450$ sense of community in some some ways.

NOTE Confidence: 0.8653719

00:03:31.450 --> 00:03:33.060 I definitely credit our ESL

NOTE Confidence: 0.8653719

 $00{:}03{:}33{.}060 \dashrightarrow 00{:}03{:}34{.}348$ instructors and their creativity.

NOTE Confidence: 0.8653719

 $00{:}03{:}34{.}350 \dashrightarrow 00{:}03{:}36{.}162$ So while we've had to cancel

NOTE Confidence: 0.8653719

 $00{:}03{:}36{.}162 \dashrightarrow 00{:}03{:}37{.}890$ things like our in person,

NOTE Confidence: 0.8653719

 $00{:}03{:}37.890 \dashrightarrow 00{:}03{:}40.137$ women sewing group for the time being,

NOTE Confidence: 0.8653719

 $00{:}03{:}40{.}140 \dashrightarrow 00{:}03{:}42{.}751$ our staff have come up with creative

NOTE Confidence: 0.8653719

00:03:42.751 --> 00:03:44.610 alternatives like our virtual tea

NOTE Confidence: 0.8653719

 $00{:}03{:}44.610 \dashrightarrow 00{:}03{:}46.620$ and talk time that happens over

NOTE Confidence: 0.8653719

 $00:03:46.620 \rightarrow 00:03:48.899$ zoom for women on a weekly basis.

- NOTE Confidence: 0.8653719
- $00:03:48.900 \rightarrow 00:03:51.048$ As well as weekly health literacy

 $00{:}03{:}51{.}048 \dashrightarrow 00{:}03{:}52{.}828$ classes that happen during the

NOTE Confidence: 0.8653719

 $00:03:52.828 \rightarrow 00:03:54.830$ evenings on a weekly basis and cover

NOTE Confidence: 0.8653719

 $00:03:54.830 \rightarrow 00:03:57.080$ a range of topics including cobett,

NOTE Confidence: 0.8653719

 $00{:}03{:}57{.}080 \dashrightarrow 00{:}03{:}59{.}200$ of course.

NOTE Confidence: 0.8653719

 $00:03:59.200 \longrightarrow 00:04:01.264$ Some of our clients have also

NOTE Confidence: 0.8653719

 $00:04:01.264 \rightarrow 00:04:03.351$ struggled with family separation as a

NOTE Confidence: 0.8653719

 $00:04:03.351 \longrightarrow 00:04:04.976$ result of covid travel restrictions,

NOTE Confidence: 0.8653719

 $00{:}04{:}04{.}980 \dashrightarrow 00{:}04{:}07{.}644$ and that certainly takes a toll

NOTE Confidence: 0.8653719

 $00:04:07.644 \longrightarrow 00:04:09.420$ on their emotional health.

NOTE Confidence: 0.8653719

 $00{:}04{:}09{.}420 \dashrightarrow 00{:}04{:}12{.}076$ One client that I can think of off

NOTE Confidence: 0.8653719

00:04:12.076 --> 00:04:15.091 the top of my head has had his family

NOTE Confidence: 0.8653719

 $00{:}04{:}15{.}091 \dashrightarrow 00{:}04{:}17{.}649$ join him in this past November,

NOTE Confidence: 0.8653719

00:04:17.650 --> 00:04:20.590 though he was expecting them to come

NOTE Confidence: 0.8653719

 $00{:}04{:}20.590 \dashrightarrow 00{:}04{:}22.757$ right before Covid shutdowns last

 $00:04:22.757 \longrightarrow 00:04:25.662$ March and you know all the delays.

NOTE Confidence: 0.8653719

 $00{:}04{:}25.670$ --> $00{:}04{:}28.055$ Resulted in them coming about

NOTE Confidence: 0.8653719

 $00{:}04{:}28.055 \dashrightarrow 00{:}04{:}30.440$ nine months later than planned.

NOTE Confidence: 0.8653719

00:04:30.440 --> 00:04:32.460 Our supportive the rapist on staff

NOTE Confidence: 0.8653719

00:04:32.460 --> 00:04:35.326 also has seen a drastic increase in

NOTE Confidence: 0.8653719

00:04:35.326 $-\!>$ 00:04:37.624 the number of new referrals that

NOTE Confidence: 0.8653719

00:04:37.624 --> 00:04:39.715 that have come through throughout

NOTE Confidence: 0.8653719

 $00:04:39.715 \longrightarrow 00:04:41.379$ the the you know,

NOTE Confidence: 0.8653719

00:04:41.380 --> 00:04:45.776 the period of covid and not only has NOTE Confidence: 0.8653719

00:04:45.776 --> 00:04:47.660 you know covid affected our clients,

NOTE Confidence: 0.8653719

 $00{:}04{:}47.660 \dashrightarrow 00{:}04{:}49.795$ but it's affected the way that we

NOTE Confidence: 0.8653719

00:04:49.795 --> 00:04:53.590 carry out our work. As staff at iris.

NOTE Confidence: 0.8653719

 $00{:}04{:}53{.}590 \dashrightarrow 00{:}04{:}56{.}290$ So we learn definitely to provide

NOTE Confidence: 0.8653719

 $00{:}04{:}56{.}290 \dashrightarrow 00{:}04{:}58{.}090$ our services remotely through,

NOTE Confidence: 0.8653719

 $00:04:58.090 \longrightarrow 00:04:59.048$ you know,

NOTE Confidence: 0.8653719

 $00:04:59.048 \longrightarrow 00:05:01.443$ through a lot of practical

- NOTE Confidence: 0.8653719
- $00:05:01.443 \rightarrow 00:05:03.424$ difficulties were always seeking

 $00{:}05{:}03{.}424 \dashrightarrow 00{:}05{:}06{.}160$ to improve and re-evaluate the way

NOTE Confidence: 0.8653719

 $00{:}05{:}06{.}160 \dashrightarrow 00{:}05{:}09{.}694$ that we deliver our services as the

NOTE Confidence: 0.8653719

 $00:05:09.694 \rightarrow 00:05:11.778$ public health situation involves.

NOTE Confidence: 0.8653719

00:05:11.780 --> 00:05:12.426 For example,

NOTE Confidence: 0.8653719

 $00:05:12.426 \longrightarrow 00:05:14.364$ we've had to shift to doing

NOTE Confidence: 0.8653719

 $00:05:14.364 \rightarrow 00:05:15.760$ remote case management,

NOTE Confidence: 0.8653719

 $00:05:15.760 \rightarrow 00:05:18.058$ so this is anything from explaining

NOTE Confidence: 0.8653719

00:05:18.058 --> 00:05:20.845 to clients how to obtain a money

NOTE Confidence: 0.8653719

 $00{:}05{:}20.845 \dashrightarrow 00{:}05{:}23.203$ order and and address an envelope.

NOTE Confidence: 0.8653719

 $00:05:23.210 \longrightarrow 00:05:25.506$ In order to pay their rent to

NOTE Confidence: 0.8653719

 $00{:}05{:}25{.}506 \dashrightarrow 00{:}05{:}27{.}767$ meeting clients out on the sidewalk

NOTE Confidence: 0.8653719

 $00{:}05{:}27.767 \dashrightarrow 00{:}05{:}30.179$ to review their Mail together to

NOTE Confidence: 0.8653719

00:05:30.179 --> 00:05:31.800 determining whether we thought it

NOTE Confidence: 0.8653719

00:05:31.800 --> 00:05:34.290 was safe to go into a client's home,

 $00:05:34.290 \longrightarrow 00:05:37.330$ to show them how to turn on their

NOTE Confidence: 0.8653719

 $00{:}05{:}37{.}417 \dashrightarrow 00{:}05{:}40{.}329$ gas stove for the first time as we

NOTE Confidence: 0.8653719

 $00:05:40.329 \dashrightarrow 00:05:42.969$ Orient them to their new apartment.

NOTE Confidence: 0.8653719

 $00:05:42.970 \rightarrow 00:05:45.350$ So it's definitely been a learning curve,

NOTE Confidence: 0.8653719

 $00{:}05{:}45{.}350 \dashrightarrow 00{:}05{:}47{.}730$ and it has required a lot of

NOTE Confidence: 0.8653719

 $00:05:47.730 \dashrightarrow 00:05:48.750$ adjustments of expectations.

NOTE Confidence: 0.8653719

 $00{:}05{:}48.750 \dashrightarrow 00{:}05{:}52.806$ Both of our staff and of our clients.

NOTE Confidence: 0.8653719

 $00:05:52.810 \longrightarrow 00:05:55.288$ We thank fully have been able to

NOTE Confidence: 0.8653719

 $00{:}05{:}55{.}288 \dashrightarrow 00{:}05{:}57{.}442$ incorporate a lot of volunteers

NOTE Confidence: 0.8653719

 $00{:}05{:}57{.}442 \dashrightarrow 00{:}06{:}00{.}389$ who can help get our basic get

NOTE Confidence: 0.8653719

 $00{:}06{:}00{.}389 \dashrightarrow 00{:}06{:}02{.}819$ basic needs out to our clients,

NOTE Confidence: 0.8653719

 $00{:}06{:}02.820 \dashrightarrow 00{:}06{:}05.244$ so some examples being weekly food

NOTE Confidence: 0.8653719

 $00{:}06{:}05{.}244 \dashrightarrow 00{:}06{:}07{.}410$ deliveries from our food Pantry,

NOTE Confidence: 0.8653719

 $00{:}06{:}07{.}410 \dashrightarrow 00{:}06{:}09{.}810$ monthly diaper deliveries for clients

NOTE Confidence: 0.8653719

 $00:06:09.810 \longrightarrow 00:06:12.670$ to qualify for our diaper bank.

NOTE Confidence: 0.8653719

 $00:06:12.670 \longrightarrow 00:06:15.412$ As well as the delivery of

- NOTE Confidence: 0.8653719
- $00:06:15.412 \longrightarrow 00:06:16.783$ kobic care packages.

 $00:06:16.790 \longrightarrow 00:06:18.794$ For color care packages we you

NOTE Confidence: 0.8653719

 $00:06:18.794 \rightarrow 00:06:20.641$ know we receive some funding

NOTE Confidence: 0.8653719

 $00:06:20.641 \rightarrow 00:06:22.421$ from our national organization

NOTE Confidence: 0.8653719

 $00:06:22.421 \rightarrow 00:06:24.646$ few months into the pandemic,

NOTE Confidence: 0.8653719

 $00:06:24.650 \rightarrow 00:06:27.008$ be able to provide hygiene products,

NOTE Confidence: 0.85010844

00:06:27.010 --> 00:06:28.171 cleaning supplies, masks,

NOTE Confidence: 0.85010844

00:06:28.171 --> 00:06:30.493 PPE to all of our clients

NOTE Confidence: 0.85010844

00:06:30.493 --> 00:06:32.520 from who arrived between 2018

NOTE Confidence: 0.85010844

 $00:06:32.520 \longrightarrow 00:06:34.480$ through on to the present,

NOTE Confidence: 0.85010844

 $00:06:34.480 \longrightarrow 00:06:36.754$ and we continue to be able

NOTE Confidence: 0.85010844

 $00:06:36.754 \longrightarrow 00:06:38.757$ to provide those items to

NOTE Confidence: 0.85010844

 $00:06:38.757 \longrightarrow 00:06:40.757$ our newest arrivals as well.

NOTE Confidence: 0.87513834

 $00{:}06{:}42.810 \dashrightarrow 00{:}06{:}45.365$ We've had to focus on working as

NOTE Confidence: 0.87513834

 $00{:}06{:}45{.}365 \dashrightarrow 00{:}06{:}47{.}760$ well with clients through the loss

 $00:06:47.760 \rightarrow 00:06:50.196$ of jobs and decreased work hours.

NOTE Confidence: 0.87513834

 $00{:}06{:}50{.}200 \dashrightarrow 00{:}06{:}52{.}440$ You know, there's been a shift from

NOTE Confidence: 0.87513834

 $00:06:52.440 \longrightarrow 00:06:54.702$ helping clients to apply for employment NOTE Confidence: 0.87513834

 $00{:}06{:}54.702 \dashrightarrow 00{:}06{:}57.186$ in general to applying for unemployment

NOTE Confidence: 0.87513834

 $00{:}06{:}57.186 \dashrightarrow 00{:}06{:}59.150$ insurance or unemployment benefits,

NOTE Confidence: 0.87513834

 $00:06:59.150 \dashrightarrow 00:07:01.970$ as well as reapplying for public

NOTE Confidence: 0.87513834

 $00{:}07{:}01{.}970 \dashrightarrow 00{:}07{:}04{.}790$ benefits after they've lost their jobs.

NOTE Confidence: 0.87513834

 $00{:}07{:}04.790 \dashrightarrow 00{:}07{:}06.572$ And we've also seen a huge

NOTE Confidence: 0.87513834

00:07:06.572 --> 00:07:08.689 increase in the Re liant Suppan.

NOTE Confidence: 0.87513834

 $00:07:08.690 \rightarrow 00:07:11.120$ Our weekly food pantry distribution.

NOTE Confidence: 0.87513834

 $00{:}07{:}11{.}120 \dashrightarrow 00{:}07{:}13{.}916$ Pre covid we averaged about 80

NOTE Confidence: 0.87513834

 $00{:}07{:}13.916 \dashrightarrow 00{:}07{:}16.826$ households a week that we served

NOTE Confidence: 0.87513834

 $00:07:16.826 \rightarrow 00:07:20.151$ through our food pantry and now during

NOTE Confidence: 0.87513834

00:07:20.151 --> 00:07:23.450 covid it's probably around 300 three,

NOTE Confidence: 0.87513834

 $00:07:23.450 \longrightarrow 00:07:25.370$ 25 households per week,

NOTE Confidence: 0.87513834

 $00:07:25.370 \longrightarrow 00:07:27.290$ both through a combination

- NOTE Confidence: 0.87513834
- $00{:}07{:}27.290 \dashrightarrow 00{:}07{:}29.360$ of walking and delivery.

00:07:29.360 --> 00:07:30.350 Distribution options.

NOTE Confidence: 0.76985556

00:07:33.050 --> 00:07:36.266 Anile moving now into more specific

NOTE Confidence: 0.76985556

 $00:07:36.266 \rightarrow 00:07:39.499$ challenges related to health care access.

NOTE Confidence: 0.76985556

 $00:07:39.500 \longrightarrow 00:07:42.008$ At the start of the pandemic,

NOTE Confidence: 0.76985556

 $00{:}07{:}42.010 \dashrightarrow 00{:}07{:}44.842$ we all know that there was a suspension

NOTE Confidence: 0.76985556

 $00:07:44.842 \dashrightarrow 00:07:47.860$ of non essential health care visits.

NOTE Confidence: 0.76985556

00:07:47.860 -> 00:07:50.026 The messaging was to stay away

NOTE Confidence: 0.76985556

 $00{:}07{:}50.026 \dashrightarrow 00{:}07{:}52.848$ from clinics to reduce the risk of

NOTE Confidence: 0.76985556

 $00:07:52.848 \rightarrow 00:07:55.028$ contracting covid and to prevent

NOTE Confidence: 0.76985556

 $00:07:55.028 \rightarrow 00:07:57.060$ overwhelming health care facilities.

NOTE Confidence: 0.76985556

 $00:07:57.060 \rightarrow 00:08:00.238$ So this meant that the initial refugee

NOTE Confidence: 0.76985556

00:08:00.238 --> 00:08:03.460 health screening that all of our newly NOTE Confidence: 0.76985556

 $00:08:03.460 \longrightarrow 00:08:05.690$ arrived clients typically get within

NOTE Confidence: 0.76985556

 $00:08:05.690 \dashrightarrow 00:08:08.257$ their first month were postponed.

 $00:08:08.260 \longrightarrow 00:08:10.672$ This appointment is also their entry

NOTE Confidence: 0.76985556

 $00:08:10.672 \rightarrow 00:08:12.640$ point into establishing primary care,

NOTE Confidence: 0.76985556

 $00:08:12.640 \longrightarrow 00:08:15.916$ so there was also a delay in

NOTE Confidence: 0.76985556

 $00{:}08{:}15{.}916 \dashrightarrow 00{:}08{:}17{.}830$ their establishing routine care.

NOTE Confidence: 0.76985556

 $00:08:17.830 \longrightarrow 00:08:19.670$ And this meant that clients,

NOTE Confidence: 0.76985556

 $00:08:19.670 \rightarrow 00:08:21.866$ not knowing where else to turn,

NOTE Confidence: 0.76985556

 $00:08:21.870 \longrightarrow 00:08:24.066$ would often end up in the

NOTE Confidence: 0.76985556

00:08:24.066 --> 00:08:24.798 emergency Department.

NOTE Confidence: 0.76985556

00:08:24.800 --> 00:08:26.268 Both for, you know,

NOTE Confidence: 0.76985556

 $00:08:26.268 \longrightarrow 00:08:27.369$ serious health issues,

NOTE Confidence: 0.76985556

 $00:08:27.370 \dashrightarrow 00:08:29.939$ as well as relatively minor health issues.

NOTE Confidence: 0.76985556

 $00{:}08{:}29{.}940 \dashrightarrow 00{:}08{:}32{.}880$ Just because I didn't really understand

NOTE Confidence: 0.76985556

 $00{:}08{:}32{.}880 \dashrightarrow 00{:}08{:}35{.}470$ their options or access points.

NOTE Confidence: 0.76985556

00:08:35.470 -> 00:08:38.026 So are rare are yell refugee

NOTE Confidence: 0.76985556

 $00:08:38.026 \rightarrow 00:08:40.222$ health clinic partners really had

NOTE Confidence: 0.76985556

 $00:08:40.222 \longrightarrow 00:08:42.312$ to advocate with their clinic

- NOTE Confidence: 0.76985556
- $00:08:42.312 \rightarrow 00:08:44.846$ leadership to allow for new intakes

 $00:08:44.846 \rightarrow 00:08:47.583$ of refugee clients in a virtual way?

NOTE Confidence: 0.76985556

 $00:08:47.590 \longrightarrow 00:08:49.318$ Because at that time,

NOTE Confidence: 0.76985556

 $00:08:49.318 \longrightarrow 00:08:51.478$ no new patients were being

NOTE Confidence: 0.76985556

00:08:51.478 --> 00:08:53.028 scheduled in any clinic,

NOTE Confidence: 0.76985556

 $00:08:53.030 \longrightarrow 00:08:55.634$ so we're really grateful for their

NOTE Confidence: 0.76985556

 $00:08:55.634 \rightarrow 00:08:58.414$ advocacy in that way that allowed

NOTE Confidence: 0.76985556

 $00:08:58.414 \rightarrow 00:09:01.300$ us to continue serving clients and

NOTE Confidence: 0.76985556

 $00:09:01.300 \dashrightarrow 00:09:03.768$ meeting their health care needs.

NOTE Confidence: 0.76985556

00:09:03.770 --> 00:09:05.010 We've also, you know,

NOTE Confidence: 0.76985556

 $00:09:05.010 \rightarrow 00:09:07.860$ switched to a lot of Tele health visits,

NOTE Confidence: 0.76985556

 $00{:}09{:}07{.}860 \dashrightarrow 00{:}09{:}09{.}882$ and we're super glad that those

NOTE Confidence: 0.76985556

 $00:09:09.882 \dashrightarrow 00:09:11.949$ are an option during this time.

NOTE Confidence: 0.76985556

 $00{:}09{:}11{.}950 \dashrightarrow 00{:}09{:}13{.}805$ But it also should be noted that

NOTE Confidence: 0.76985556

 $00{:}09{:}13.805 \dashrightarrow 00{:}09{:}15.776$ those you know come with increasing

 $00:09:15.776 \rightarrow 00:09:17.264$ complications whenever you have

NOTE Confidence: 0.76985556

 $00{:}09{:}17{.}264 \dashrightarrow 00{:}09{:}19{.}120$ to involve an interpreter,

NOTE Confidence: 0.76985556

00:09:19.120 --> 00:09:21.325 and also whenever you're dealing

NOTE Confidence: 0.76985556

00:09:21.325 --> 00:09:24.009 with clients who maybe have a

NOTE Confidence: 0.76985556

 $00:09:24.009 \longrightarrow 00:09:25.597$ lack of digital literacy.

NOTE Confidence: 0.76985556

 $00:09:25.600 \longrightarrow 00:09:26.360$ So oftentimes,

NOTE Confidence: 0.76985556

00:09:26.360 $\operatorname{-->}$ 00:09:29.020 clients who you know didn't have a

NOTE Confidence: 0.76985556

 $00{:}09{:}29{.}020 \dashrightarrow 00{:}09{:}31{.}950$ lot of prior experience or knowledge

NOTE Confidence: 0.76985556

 $00:09:31.950 \dashrightarrow 00:09:33.930$ with navigating technology would

NOTE Confidence: 0.76985556

 $00:09:33.930 \rightarrow 00:09:36.647$ end up having phone virtual phone,

NOTE Confidence: 0.76985556

00:09:36.650 --> 00:09:37.976 you know appointments.

NOTE Confidence: 0.76985556

 $00:09:37.976 \longrightarrow 00:09:40.186$ This is less than ideal,

NOTE Confidence: 0.76985556

 $00{:}09{:}40.190 \dashrightarrow 00{:}09{:}42.704$ you know both for establishing repor

NOTE Confidence: 0.76985556

 $00:09:42.704 \dashrightarrow 00:09:45.262$ and trust between the patient and

NOTE Confidence: 0.76985556

 $00:09:45.262 \rightarrow 00:09:47.686$ provider as well as the providers

NOTE Confidence: 0.76985556

 $00:09:47.686 \rightarrow 00:09:50.124$ ability to even physically observe

- NOTE Confidence: 0.76985556
- $00:09:50.124 \longrightarrow 00:09:51.675$ a patient visually.

 $00:09:53.750 \dashrightarrow 00:09:55.765$ Another challenge we faced with

NOTE Confidence: 0.86949843

 $00:09:55.765 \rightarrow 00:09:57.780$ transportation to in person appointments

NOTE Confidence: 0.86949843

 $00:09:57.843 \rightarrow 00:10:00.307$ when when there were in person appointments,

NOTE Confidence: 0.86949843

 $00{:}10{:}00{.}310 \dashrightarrow 00{:}10{:}02.626$ you know most of our refugees

NOTE Confidence: 0.86949843

 $00:10:02.626 \longrightarrow 00:10:04.170$ do not have vehicles.

NOTE Confidence: 0.86949843

 $00:10:04.170 \longrightarrow 00:10:06.354$ Sometimes they have friends or family

NOTE Confidence: 0.86949843

 $00:10:06.354 \rightarrow 00:10:09.189$ members who can take them to appointments,

NOTE Confidence: 0.86949843

 $00{:}10{:}09{.}190 \dashrightarrow 00{:}10{:}11{.}983$ but often times they are relying upon public

NOTE Confidence: 0.86949843

 $00:10:11.983 \rightarrow 00:10:14.208$ transportation and for awhile you know,

NOTE Confidence: 0.86949843

 $00:10:14.210 \longrightarrow 00:10:16.905$ as we assessed the risks we were,

NOTE Confidence: 0.86949843

00:10:16.910 --> 00:10:19.370 you know, advocating or advising that

NOTE Confidence: 0.86949843

 $00:10:19.370 \longrightarrow 00:10:21.636$ clients not not necessarily subject

NOTE Confidence: 0.86949843

 $00{:}10{:}21.636$ --> $00{:}10{:}23.860$ themselves to public transportation.

NOTE Confidence: 0.86949843

 $00:10:23.860 \longrightarrow 00:10:26.032$ And so this you know creates

00:10:26.032 --> 00:10:26.756 creates difficulties,

NOTE Confidence: 0.86949843

 $00{:}10{:}26.760 \dashrightarrow 00{:}10{:}29.070$ but we eventually were able to use

NOTE Confidence: 0.86949843

 $00:10:29.070 \rightarrow 00:10:31.334$ some grant funding to help cover

NOTE Confidence: 0.86949843

 $00:10:31.334 \rightarrow 00:10:32.938$ Uber rides health appointments.

NOTE Confidence: 0.86949843

 $00{:}10{:}32{.}940 \dashrightarrow 00{:}10{:}35{.}698$ We also had developed a great network

NOTE Confidence: 0.86949843

 $00{:}10{:}35{.}698 \dashrightarrow 00{:}10{:}37{.}872$ of volunteer drivers who would be

NOTE Confidence: 0.86949843

 $00:10:37.872 \rightarrow 00:10:40.560$ willing to step in at a moment's notice.

NOTE Confidence: 0.86949843

 $00:10:40.560 \longrightarrow 00:10:44.316$ So we're very thankful for that.

NOTE Confidence: 0.86949843

00:10:44.320 --> 00:10:49.240 I'm turning to health education

NOTE Confidence: 0.86949843

00:10:49.240 --> 00:10:51.208 surrounding Covid.

NOTE Confidence: 0.86949843

 $00:10:51.210 \longrightarrow 00:10:52.850$ Especially like in the initial

NOTE Confidence: 0.86949843

 $00:10:52.850 \rightarrow 00:10:54.162$ stages of the pandemic,

NOTE Confidence: 0.86949843

 $00:10:54.170 \longrightarrow 00:10:56.492$ Iris as well as the refugee

NOTE Confidence: 0.86949843

 $00:10:56.492 \longrightarrow 00:10:58.040$ health clinic at Yale.

NOTE Confidence: 0.86949843

 $00:10:58.040 \rightarrow 00:11:00.434$ We were kind of scrambling to ensure

NOTE Confidence: 0.86949843

 $00:11:00.434 \rightarrow 00:11:02.396$ that our refugee clients were

- NOTE Confidence: 0.86949843
- $00:11:02.396 \rightarrow 00:11:04.561$ understanding all the public health

 $00{:}11{:}04.561 \dashrightarrow 00{:}11{:}06.700$ messages that were circulating.

NOTE Confidence: 0.86949843

 $00:11:06.700 \longrightarrow 00:11:09.031$ So the Yellow Clinic had some of

NOTE Confidence: 0.86949843

 $00:11:09.031 \rightarrow 00:11:10.514$ their medical students called

NOTE Confidence: 0.86949843

 $00:11:10.514 \longrightarrow 00:11:12.206$ patients and explain things.

NOTE Confidence: 0.86949843

00:11:12.210 $\operatorname{-->}$ 00:11:14.751 And Iris staff also was making an

NOTE Confidence: 0.86949843

 $00{:}11{:}14.751 \dashrightarrow 00{:}11{:}16.727$ effort to communicate with clients

NOTE Confidence: 0.86949843

 $00{:}11{:}16.727 \dashrightarrow 00{:}11{:}19.181$ are health team at Iris accumulated

NOTE Confidence: 0.86949843

00:11:19.181 --> 00:11:21.334 an translated resources into the

NOTE Confidence: 0.86949843

 $00:11:21.334 \rightarrow 00:11:23.439$ languages that our client speak?

NOTE Confidence: 0.86949843

 $00:11:23.440 \longrightarrow 00:11:25.040$ So we dispersed information

NOTE Confidence: 0.86949843

 $00{:}11{:}25{.}040 \dashrightarrow 00{:}11{:}27{.}040$ in whatever means we could.

NOTE Confidence: 0.86949843

00:11:27.040 --> 00:11:29.440 So that was WhatsApp mass texts,

NOTE Confidence: 0.86949843

00:11:29.440 --> 00:11:31.040 mass emails, paper Flyers,

NOTE Confidence: 0.86949843

 $00:11:31.040 \rightarrow 00:11:33.040$ and many many phone calls.

 $00{:}11{:}33{.}040 \dashrightarrow 00{:}11{:}35{.}504$ We did hours and hours of outreach

NOTE Confidence: 0.86949843

 $00{:}11{:}35{.}504 \dashrightarrow 00{:}11{:}38{.}416$ to all of our clients who arrived

NOTE Confidence: 0.86949843

 $00:11:38.416 \longrightarrow 00:11:40.636$ within the last two years,

NOTE Confidence: 0.86949843

 $00:11:40.640 \rightarrow 00:11:43.153$ as well as trying to to target

NOTE Confidence: 0.86949843

 $00{:}11{:}43{.}153 \dashrightarrow 00{:}11{:}45{.}218$ our clients who arrived within

NOTE Confidence: 0.86949843

 $00:11:45.218 \longrightarrow 00:11:47.038$ the last five years,

NOTE Confidence: 0.86949843

 $00{:}11{:}47.040 \dashrightarrow 00{:}11{:}50.847$ especially if they were over the age of 65

NOTE Confidence: 0.86949843

 $00:11:50.847 \rightarrow 00:11:54.848$ or had any underlying health conditions.

NOTE Confidence: 0.86949843

 $00{:}11{:}54.850 \dashrightarrow 00{:}11{:}57.178$ And we also did our best to assist

NOTE Confidence: 0.86949843

00:11:57.178 --> 00:11:59.129 clients in getting covid tests,

NOTE Confidence: 0.86949843

 $00{:}11{:}59{.}130 \dashrightarrow 00{:}12{:}01{.}160$ which at first you know we're limited

NOTE Confidence: 0.86949843

 $00{:}12{:}01{.}160 \dashrightarrow 00{:}12{:}03{.}584$ and you know understanding of how to

NOTE Confidence: 0.86949843

 $00{:}12{:}03.584 \dashrightarrow 00{:}12{:}05.444$ access these tests and transportation

NOTE Confidence: 0.86949843

 $00{:}12{:}05{.}444 \dashrightarrow 00{:}12{:}07{.}677$ to the test sites was a challenge,

NOTE Confidence: 0.86949843

 $00:12:07.680 \longrightarrow 00:12:09.330$ but thankfully there have been,

NOTE Confidence: 0.86949843

00:12:09.330 --> 00:12:10.118 you know,

- NOTE Confidence: 0.86949843
- $00:12:10.118 \longrightarrow 00:12:12.482$ a number of resources that have
- NOTE Confidence: 0.86949843
- $00:12:12.482 \longrightarrow 00:12:14.608$ been developed to allow for
- NOTE Confidence: 0.86949843
- $00{:}12{:}14.608 \dashrightarrow 00{:}12{:}16.718$ transportation to these test sites.
- NOTE Confidence: 0.86949843
- 00:12:16.720 --> 00:12:17.267 Anne.
- NOTE Confidence: 0.86949843
- $00{:}12{:}17{.}267 \dashrightarrow 00{:}12{:}21{.}643$ And our focus at the current moment is,
- NOTE Confidence: 0.86949843
- $00:12:21.650 \rightarrow 00:12:23.800$ not surprisingly and very excitingly,
- NOTE Confidence: 0.86949843
- $00:12:23.800 \longrightarrow 00:12:26.453$ that we are able to help clients
- NOTE Confidence: 0.86949843
- $00:12:26.453 \rightarrow 00:12:29.370$ gain access to the COVID-19 vaccine.
- NOTE Confidence: 0.86949843
- 00:12:29.370 --> 00:12:31.840 So Doctor Legarde from Fairhaven
- NOTE Confidence: 0.86949843
- $00{:}12{:}31{.}840 \dashrightarrow 00{:}12{:}34{.}310$ Community Health Center reached out
- NOTE Confidence: 0.86949843
- $00{:}12{:}34{.}385 \dashrightarrow 00{:}12{:}36{.}772$ originally to Iris to partner with us
- NOTE Confidence: 0.86949843
- $00{:}12{:}36{.}772 \dashrightarrow 00{:}12{:}39{.}586$ and a few other local organizations
- NOTE Confidence: 0.86949843
- $00:12:39.586 \longrightarrow 00:12:41.870$ to prioritize vaccine access.
- NOTE Confidence: 0.86949843
- $00:12:41.870 \longrightarrow 00:12:43.945$ This was specifically to communities
- NOTE Confidence: 0.86949843
- $00:12:43.945 \longrightarrow 00:12:44.775$ of color,
- NOTE Confidence: 0.86949843

 $00{:}12{:}44.780 \dashrightarrow 00{:}12{:}47.200$ undocumented communities and those who

NOTE Confidence: 0.86949843

 $00{:}12{:}47{.}200 \dashrightarrow 00{:}12{:}49{.}620$ would otherwise be disadvantaged in

NOTE Confidence: 0.86949843

 $00{:}12{:}49.691 \dashrightarrow 00{:}12{:}52.307$ their access to these vaccine resources.

NOTE Confidence: 0.86949843

 $00:12:52.310 \longrightarrow 00:12:54.818$ So our health and Wellness Manager,

NOTE Confidence: 0.86949843

 $00{:}12{:}54.820 \dashrightarrow 00{:}12{:}57.412$ Pamela and her health team at

NOTE Confidence: 0.86949843

 $00:12:57.412 \rightarrow 00:13:00.270$ Iris are leading the way on this.

NOTE Confidence: 0.86949843

 $00{:}13{:}00{.}270 \dashrightarrow 00{:}13{:}02{.}671$ We've been given access to a live

NOTE Confidence: 0.86949843

 $00:13:02.671 \longrightarrow 00:13:05.090$ schedule that we can update to

NOTE Confidence: 0.86949843

00:13:05.090 --> 00:13:06.846 schedule client appointments so

NOTE Confidence: 0.86949843

 $00{:}13{:}06{.}846 \dashrightarrow 00{:}13{:}09{.}618$ that clients don't have the the

NOTE Confidence: 0.86949843

 $00{:}13{:}09{.}618 \dashrightarrow 00{:}13{:}11{.}918$ barrier of trying to schedule

NOTE Confidence: 0.86949843

 $00:13:11.918 \rightarrow 00:13:13.578$ vaccination appointments online in.

NOTE Confidence: 0.86949843

00:13:13.578 --> 00:13:14.316 In addition,

NOTE Confidence: 0.86949843

 $00:13:14.316 \longrightarrow 00:13:16.161$ Iris has expanded services in

NOTE Confidence: 0.86949843

00:13:16.161 --> 00:13:18.071 recent years to undocumented

NOTE Confidence: 0.86949843

00:13:18.071 --> 00:13:19.547 immigrants in Connecticut,

- NOTE Confidence: 0.86949843
- $00:13:19.550 \longrightarrow 00:13:22.476$ and this is through our Son program.

 $00:13:22.480 \longrightarrow 00:13:25.290$ Our services to undocumented neighbors.

NOTE Confidence: 0.8555937

 $00:13:25.290 \rightarrow 00:13:27.094$ So through their partnership

NOTE Confidence: 0.8555937

 $00:13:27.094 \rightarrow 00:13:29.349$ with the Fair Haven Clinic,

NOTE Confidence: 0.8555937

00:13:29.350 --> 00:13:32.056 we're reaching out to undocumented clients,

NOTE Confidence: 0.8555937

 $00{:}13{:}32.060 \dashrightarrow 00{:}13{:}34.574$ assuring them that they have access

NOTE Confidence: 0.8555937

 $00:13:34.574 \rightarrow 00:13:37.757$ to the vaccine and helping to overcome

NOTE Confidence: 0.8555937

 $00:13:37.757 \longrightarrow 00:13:40.601$ hesitations that they may face related

NOTE Confidence: 0.8555937

00:13:40.601 --> 00:13:43.329 to a lack of medical insurance.

NOTE Confidence: 0.8555937

 $00:13:43.330 \longrightarrow 00:13:45.134$ You know, having beers

NOTE Confidence: 0.8555937

 $00:13:45.134 \longrightarrow 00:13:46.487$ regarding disclosing it,

NOTE Confidence: 0.8555937

 $00:13:46.490 \rightarrow 00:13:50.310$ immigration status and related concerns.

NOTE Confidence: 0.8555937

 $00{:}13{:}50{.}310 \dashrightarrow 00{:}13{:}53{.}526$ And I want to end with just some

NOTE Confidence: 0.8555937

 $00{:}13{:}53{.}526$ --> $00{:}13{:}55{.}721$ general lessons learned and

NOTE Confidence: 0.8555937

 $00:13:55.721 \rightarrow 00:13:58.333$ generally positive outcomes from

 $00:13:58.333 \rightarrow 00:14:00.945$ this particularly difficult time.

NOTE Confidence: 0.8555937

00:14:00.950 --> 00:14:03.596 One exciting trend that we have

NOTE Confidence: 0.8555937

 $00{:}14{:}03{.}596$ --> $00{:}14{:}07{.}658$ noticed at Iris is that a lot of our NOTE Confidence: 0.8555937

 $00:14:07.658 \rightarrow 00:14:09.863$ male clients who were previously NOTE Confidence: 0.8555937

00:14:09.956 --> 00:14:12.426 less engaged in medical services

NOTE Confidence: 0.8555937

 $00{:}14{:}12{.}426$ --> $00{:}14{:}15{.}349$ have seen we've seen an increase NOTE Confidence: 0.8555937

00:14:15.349 --> 00:14:18.043 in their willingness to engage with

NOTE Confidence: 0.8555937

 $00{:}14{:}18{.}043 \dashrightarrow 00{:}14{:}20{.}427$ with both telehealth and virtual

NOTE Confidence: 0.8555937

 $00{:}14{:}20{.}427 \dashrightarrow 00{:}14{:}21{.}876$ mental health services,

NOTE Confidence: 0.8555937

 $00{:}14{:}21.880 \dashrightarrow 00{:}14{:}24.520$ and clients have specifically voiced

NOTE Confidence: 0.8555937

 $00:14:24.520 \rightarrow 00:14:28.196$ that they are more willing to engage NOTE Confidence: 0.8555937

 $00{:}14{:}28.196 \dashrightarrow 00{:}14{:}31.028$ in these services given the amount.

NOTE Confidence: 0.8555937

 $00{:}14{:}31{.}030 \dashrightarrow 00{:}14{:}33{.}144$ Or the level of an onymity that a

NOTE Confidence: 0.8555937

 $00{:}14{:}33{.}144 \dashrightarrow 00{:}14{:}35{.}093$ virtual or Tele health appointment

NOTE Confidence: 0.8555937

 $00:14:35.093 \longrightarrow 00:14:36.069$ allows them?

NOTE Confidence: 0.8555937

00:14:36.070 --> 00:14:36.600 You know,

- NOTE Confidence: 0.8555937
- $00{:}14{:}36{.}600 \dashrightarrow 00{:}14{:}38{.}720$ so they don't have to be in the

00:14:38.794 --> 00:14:41.029 waiting room and fear potentially

NOTE Confidence: 0.8555937

 $00:14:41.029 \rightarrow 00:14:43.264$ seeing others from their community,

NOTE Confidence: 0.8555937

 $00:14:43.270 \longrightarrow 00:14:44.797$ which you know.

NOTE Confidence: 0.8555937

 $00{:}14{:}44{.}797 \dashrightarrow 00{:}14{:}47{.}851$ You know they they attribute to

NOTE Confidence: 0.8555937

 $00:14:47.851 \longrightarrow 00:14:51.519$ the social stigma around accessing

NOTE Confidence: 0.8555937

 $00:14:51.519 \longrightarrow 00:14:53.049$ these services.

NOTE Confidence: 0.8555937

 $00:14:53.050 \rightarrow 00:14:54.880$ There's also been a greater

NOTE Confidence: 0.8555937

 $00:14:54.880 \longrightarrow 00:14:56.710$ ability to serve clients remotely,

NOTE Confidence: 0.8555937

 $00:14:56.710 \longrightarrow 00:14:59.013$ and this is led to some practices

NOTE Confidence: 0.8555937

 $00{:}14{:}59{.}013 \dashrightarrow 00{:}15{:}01{.}468$ that were not necessary pre covid,

NOTE Confidence: 0.8555937

 $00{:}15{:}01{.}470 \dashrightarrow 00{:}15{:}03{.}702$ but we think will continue even

NOTE Confidence: 0.8555937

 $00{:}15{:}03.702 \dashrightarrow 00{:}15{:}05.490$ after we don't have to.

NOTE Confidence: 0.8555937

 $00:15:05.490 \longrightarrow 00:15:07.322$ After things you know,

NOTE Confidence: 0.8555937

 $00{:}15{:}07{.}322 \dashrightarrow 00{:}15{:}09{.}612$ return to whatever the new

 $00:15:09.612 \rightarrow 00:15:11.958$ normal looks like with covid.

NOTE Confidence: 0.8555937

 $00:15:11.960 \longrightarrow 00:15:14.452$ A few examples of that would just

NOTE Confidence: 0.8555937

 $00:15:14.452 \rightarrow 00:15:16.438$ be applying for public benefits

NOTE Confidence: 0.8555937

 $00{:}15{:}16.438 \dashrightarrow 00{:}15{:}18.543$ online rather than in person

NOTE Confidence: 0.8555937

 $00:15:18.543 \longrightarrow 00:15:20.540$ and and using my chart,

NOTE Confidence: 0.8555937

 $00{:}15{:}20{.}540 \dashrightarrow 00{:}15{:}23{.}088$ making sure that all of our clients

NOTE Confidence: 0.8555937

 $00{:}15{:}23.088 \dashrightarrow 00{:}15{:}25.687$ are set up with my chart from

NOTE Confidence: 0.8555937

 $00:15:25.687 \longrightarrow 00:15:28.369$ the start so that they are able

NOTE Confidence: 0.8555937

 $00{:}15{:}28{.}369 \dashrightarrow 00{:}15{:}30{.}679$ to navigate their Tele health,

NOTE Confidence: 0.8555937

 $00:15:30.680 \rightarrow 00:15:31.850$ appointments, medical records,

NOTE Confidence: 0.8555937

 $00:15:31.850 \dashrightarrow 00:15:32.630$ scheduling appointments,

NOTE Confidence: 0.8555937

 $00:15:32.630 \longrightarrow 00:15:34.950$ and communicating with their

NOTE Confidence: 0.8555937

 $00:15:34.950 \longrightarrow 00:15:36.690$ health care providers.

NOTE Confidence: 0.8555937

00:15:36.690 --> 00:15:38.930 And I think most importantly,

NOTE Confidence: 0.8555937

 $00{:}15{:}38{.}930 \dashrightarrow 00{:}15{:}41{.}072$ in within the Iris community we

NOTE Confidence: 0.8555937

 $00:15:41.072 \rightarrow 00:15:44.006$ have not had any deaths or major

- NOTE Confidence: 0.8555937
- 00:15:44.006 --> 00:15:45.910 hospitalizations due to covid

 $00{:}15{:}45{.}910 \dashrightarrow 00{:}15{:}48{.}310$ amongst our client populations.

NOTE Confidence: 0.8555937

 $00:15:48.310 \longrightarrow 00:15:50.992$ And this we really credit to

NOTE Confidence: 0.8555937

 $00:15:50.992 \rightarrow 00:15:52.780$ the education outreach efforts,

NOTE Confidence: 0.8555937

 $00{:}15{:}52{.}780 \dashrightarrow 00{:}15{:}55{.}660$ an ability to provide deliveries to

NOTE Confidence: 0.8555937

 $00{:}15{:}55{.}660 \dashrightarrow 00{:}15{:}58{.}138$ vulnerable clients to meet their

NOTE Confidence: 0.8555937

 $00:15:58.138 \rightarrow 00:16:00.503$ basic needs without them having

NOTE Confidence: 0.8555937

 $00:16:00.503 \rightarrow 00:16:01.922$ to risk exposure.

NOTE Confidence: 0.8555937

 $00{:}16{:}01{.}930 \dashrightarrow 00{:}16{:}04{.}555$ And this is definitely been through the

NOTE Confidence: 0.8555937

 $00{:}16{:}04.555 \dashrightarrow 00{:}16{:}07.780$ help of many partnerships and volunteers,

NOTE Confidence: 0.8555937

 $00:16:07.780 \longrightarrow 00:16:12.414$ and so we're really thankful for that.

NOTE Confidence: 0.8555937

00:16:12.420 --> 00:16:14.612 And to end I would say that we've

NOTE Confidence: 0.8555937

 $00{:}16{:}14.612 \dashrightarrow 00{:}16{:}17.080$ seen a lot of resilience a midst the

NOTE Confidence: 0.8555937

 $00{:}16{:}17.080 \dashrightarrow 00{:}16{:}19.410$ challenges of the time of kobid,

NOTE Confidence: 0.8555937

 $00:16:19.410 \longrightarrow 00:16:21.684$ both from our clients and from

- 00:16:21.684 --> 00:16:23.200 the Community support networks
- NOTE Confidence: 0.8555937
- $00:16:23.268 \longrightarrow 00:16:24.450$ that surround them.
- NOTE Confidence: 0.8555937
- 00:16:24.450 --> 00:16:25.176 You know,
- NOTE Confidence: 0.8555937
- $00:16:25.176 \longrightarrow 00:16:27.354$ we've all learned to adapt and
- NOTE Confidence: 0.8555937
- $00{:}16{:}27.354 \dashrightarrow 00{:}16{:}29.363$ considerable was te and continue to
- NOTE Confidence: 0.8555937
- $00:16:29.363 \rightarrow 00:16:30.987$ addressing needs where incredibly
- NOTE Confidence: 0.8555937
- $00:16:30.987 \longrightarrow 00:16:33.415$ grateful for the partnerships that we
- NOTE Confidence: 0.8555937
- $00:16:33.415 \rightarrow 00:16:36.082$ have with the Yale Refugee Health clinic,
- NOTE Confidence: 0.8555937
- $00{:}16{:}36.090 \dashrightarrow 00{:}16{:}36.478$ heal,
- NOTE Confidence: 0.8555937
- $00:16:36.478 \longrightarrow 00:16:37.254$ patient navigators,
- NOTE Confidence: 0.8555937
- 00:16:37.254 --> 00:16:38.806 Fairhaven Community Health Clinic,
- NOTE Confidence: 0.8555937
- $00:16:38.810 \longrightarrow 00:16:41.225$ and other medical and social
- NOTE Confidence: 0.8555937
- $00:16:41.225 \rightarrow 00:16:43.640$ service providers in the community.
- NOTE Confidence: 0.8555937
- 00:16:43.640 --> 00:16:46.020 One thing I often say is that it takes a
- NOTE Confidence: 0.8555937
- $00:16:46.085 \rightarrow 00:16:48.470$ community approach to resettle refugees,
- NOTE Confidence: 0.8555937
- 00:16:48.470 --> 00:16:50.718 and I also think it takes the Community

NOTE Confidence: 0.8555937 00:16:50.718 --> 00:16:52.329 approach to overcome COVID-19. NOTE Confidence: 0.8555937 00:16:52.330 --> 00:16:54.458 So I just want to thank you NOTE Confidence: 0.8555937 00:16:54.458 --> 00:16:56.518 all for your support in in. NOTE Confidence: 0.8555937 00:16:56.520 --> 00:16:59.070 In both of those endeavors. NOTE Confidence: 0.8555937 00:16:59.070 --> 00:17:00.330 Thank you so much.
