WEBVTT

NOTE duration: "00:20:45.3760000"

NOTE language:en-us

NOTE Confidence: 0.83672905

 $00:00:00.000 \longrightarrow 00:00:01.638$ One issue that has come up in

NOTE Confidence: 0.83672905

 $00:00:01.638 \longrightarrow 00:00:03.103$ some of the earlier presentations

NOTE Confidence: 0.83672905

 $00:00:03.103 \longrightarrow 00:00:05.221$ this evening has been this issue

NOTE Confidence: 0.83672905

 $00{:}00{:}05.221 \dashrightarrow 00{:}00{:}07.417$ of sort of digital literacy ANAN.

NOTE Confidence: 0.83672905

00:00:07.420 --> 00:00:08.612 Thinking about, you know,

NOTE Confidence: 0.83672905

00:00:08.612 --> 00:00:10.102 as you brought up Brita,

NOTE Confidence: 0.83672905

 $00:00:10.110 \dashrightarrow 00:00:12.494$ you know with the on line vaccine scheduling,

NOTE Confidence: 0.83672905

 $00:00:12.500 \longrightarrow 00:00:14.180$ that's not necessarily going to be

NOTE Confidence: 0.83672905

 $00{:}00{:}14.180 \dashrightarrow 00{:}00{:}15.790$ the ideal mechanism for refugees,

NOTE Confidence: 0.83672905

 $00:00:15.790 \longrightarrow 00:00:17.960$ but but for many other populations as

NOTE Confidence: 0.83672905

 $00:00:17.960 \longrightarrow 00:00:20.673$ well and in in my work with with sort

NOTE Confidence: 0.83672905

00:00:20.673 --> 00:00:22.957 of other members of the wine HH team,

NOTE Confidence: 0.83672905

 $00:00:22.960 \longrightarrow 00:00:24.440$ I've been really impressed to

NOTE Confidence: 0.83672905

 $00:00:24.440 \longrightarrow 00:00:26.250$ hear about what has been done.

 $00:00:26.250 \longrightarrow 00:00:28.594$ Sort of in a granular sense to try

NOTE Confidence: 0.83672905

 $00:00:28.594 \longrightarrow 00:00:30.828$ to reach out to folks who maybe.

NOTE Confidence: 0.83672905

 $00:00:30.830 \longrightarrow 00:00:32.768$ Not be the most digitally literate,

NOTE Confidence: 0.83672905

 $00:00:32.770 \longrightarrow 00:00:34.996$ and I was wondering if you could

NOTE Confidence: 0.83672905

 $00{:}00{:}34.996 \dashrightarrow 00{:}00{:}36.658$ give some additional detail just

NOTE Confidence: 0.83672905

 $00:00:36.658 \longrightarrow 00:00:37.630$ about the phone

NOTE Confidence: 0.8411981

00:00:37.630 --> 00:00:39.580 scheduling and how that's been going,

NOTE Confidence: 0.8411981

 $00:00:39.580 \longrightarrow 00:00:40.549$ things sure absolutely.

NOTE Confidence: 0.8411981

00:00:40.549 --> 00:00:42.487 So, in addition to digital literacy,

NOTE Confidence: 0.8411981

 $00:00:42.490 \longrightarrow 00:00:44.020$ there's also the issue that

NOTE Confidence: 0.8411981

 $00:00:44.020 \longrightarrow 00:00:46.379$ there is a number of people with,

NOTE Confidence: 0.8411981

00:00:46.380 --> 00:00:48.330 you know where the English is,

NOTE Confidence: 0.8411981

 $00:00:48.330 \longrightarrow 00:00:49.578$ not their first language,

NOTE Confidence: 0.8411981

 $00:00:49.578 \longrightarrow 00:00:51.138$ and so that would also

NOTE Confidence: 0.8411981

 $00:00:51.138 \longrightarrow 00:00:52.857$ be very difficult to map.

 $00:00:52.860 \longrightarrow 00:00:54.480$ To navigate our site so

NOTE Confidence: 0.8411981

 $00:00:54.480 \longrightarrow 00:00:56.100$ the phone number to call,

NOTE Confidence: 0.8411981

 $00:00:56.100 \longrightarrow 00:00:59.670$ and I can also put it in the chat is 833.

NOTE Confidence: 0.8411981

00:00:59.670 --> 00:01:02.358 Ask why NHH and through that line.

NOTE Confidence: 0.8411981

 $00:01:02.360 \longrightarrow 00:01:04.568$ One people that live in those

NOTE Confidence: 0.8411981

 $00{:}01{:}04.568 \dashrightarrow 00{:}01{:}06.504$ highly vulnerable zip codes are

NOTE Confidence: 0.8411981

 $00:01:06.504 \longrightarrow 00:01:08.474$ basically can be identified through

NOTE Confidence: 0.8411981

 $00:01:08.474 \longrightarrow 00:01:10.649$ our systems that they live in

NOTE Confidence: 0.8411981

 $00{:}01{:}10.649 \dashrightarrow 00{:}01{:}12.769$ one of those areas and it can get

NOTE Confidence: 0.8411981

 $00:01:12.770 \longrightarrow 00:01:14.846$ prioritized for one of those slots.

NOTE Confidence: 0.8411981

00:01:14.850 --> 00:01:16.926 We also have a number of

NOTE Confidence: 0.8411981

 $00:01:16.926 \longrightarrow 00:01:18.713$ different languages that can be

NOTE Confidence: 0.8411981

00:01:18.713 --> 00:01:20.398 supported on the phone line,

NOTE Confidence: 0.8411981

 $00:01:20.400 \longrightarrow 00:01:23.870$ so that is a great way for folks to schedule.

NOTE Confidence: 0.8411981

 $00:01:23.870 \longrightarrow 00:01:24.616$ In addition,

NOTE Confidence: 0.8411981

 $00{:}01{:}24.616 \dashrightarrow 00{:}01{:}26.854$ one thing I forgot to mention

 $00{:}01{:}26.854 \dashrightarrow 00{:}01{:}29.125$ was that we have appointments

NOTE Confidence: 0.8411981

00:01:29.125 --> 00:01:31.545 through Connecticut 211 as well.

NOTE Confidence: 0.8411981

00:01:31.550 --> 00:01:32.220 And two,

NOTE Confidence: 0.8411981

 $00:01:32.220 \longrightarrow 00:01:34.565$ one one has access to not only

NOTE Confidence: 0.8411981

 $00:01:34.565 \longrightarrow 00:01:36.693$ only given appointments but a

NOTE Confidence: 0.8411981

 $00:01:36.693 \longrightarrow 00:01:39.255$ number of other number of other

NOTE Confidence: 0.8411981

00:01:39.335 --> 00:01:41.930 providers giving vaccines as well.

NOTE Confidence: 0.8411981

 $00:01:41.930 \longrightarrow 00:01:44.828$ And I know they have language services.

NOTE Confidence: 0.8411981

00:01:44.830 --> 00:01:46.446 Also community health workers

NOTE Confidence: 0.8411981

 $00{:}01{:}46.446 \dashrightarrow 00{:}01{:}48.466$ can also schedule directly into

NOTE Confidence: 0.8411981

 $00{:}01{:}48.466 \dashrightarrow 00{:}01{:}51.039$ our system and again for those

NOTE Confidence: 0.8411981

 $00:01:51.039 \longrightarrow 00:01:52.299$ highly vulnerable patients.

NOTE Confidence: 0.8411981

 $00{:}01{:}52.300 \dashrightarrow 00{:}01{:}54.592$ So partnering with whether

NOTE Confidence: 0.8411981

00:01:54.592 --> 00:01:57.457 it's project access or other.

NOTE Confidence: 0.8411981

 $00:01:57.460 \longrightarrow 00:01:59.386$ Navigator Programs is another way that

 $00:01:59.386 \longrightarrow 00:02:01.820$ we can get people directly scheduled.

NOTE Confidence: 0.898502229999999

 $00:02:03.380 \longrightarrow 00:02:04.370$ Wonderful thank you.

NOTE Confidence: 0.898502229999999

00:02:04.370 --> 00:02:06.350 I just think it's amazing that

NOTE Confidence: 0.898502229999999

 $00:02:06.350 \longrightarrow 00:02:08.361$ you guys can identify somebody's

NOTE Confidence: 0.898502229999999

 $00:02:08.361 \longrightarrow 00:02:09.973$ location where they're coming

NOTE Confidence: 0.898502229999999

 $00:02:09.973 \longrightarrow 00:02:12.900$ from and actually target them for

NOTE Confidence: 0.898502229999999

 $00:02:12.900 \longrightarrow 00:02:14.445$ specifically reserved appointments.

NOTE Confidence: 0.898502229999999

 $00:02:14.450 \longrightarrow 00:02:17.168$ Technology is amazing.

NOTE Confidence: 0.898502229999999

 $00{:}02{:}17.170 \dashrightarrow 00{:}02{:}19.054$ You know another question too and

NOTE Confidence: 0.898502229999999

 $00:02:19.054 \longrightarrow 00:02:21.120$ this could be for both of you,

NOTE Confidence: 0.898502229999999

 $00{:}02{:}21.120 \dashrightarrow 00{:}02{:}22.728$ and since Jason you're involved at

NOTE Confidence: 0.898502229999999

 $00:02:22.728 \longrightarrow 00:02:25.053$ the state level is just in terms of

NOTE Confidence: 0.898502229999999

 $00:02:25.053 \longrightarrow 00:02:26.548$ thinking about the information that

NOTE Confidence: 0.898502229999999

00:02:26.548 --> 00:02:28.584 people need to provide when they

NOTE Confidence: 0.898502229999999

 $00:02:28.584 \longrightarrow 00:02:29.932$ are scheduling their appointments.

NOTE Confidence: 0.898502229999999

 $00{:}02{:}29.940 \dashrightarrow 00{:}02{:}31.914$ I know that through the damn system

00:02:31.914 --> 00:02:34.209 on line you know it's it's sort of

NOTE Confidence: 0.898502229999999

 $00:02:34.209 \longrightarrow 00:02:36.320$ date of birth and maybe occupation.

NOTE Confidence: 0.898502229999999

00:02:36.320 --> 00:02:37.980 If that's your eligibility and

NOTE Confidence: 0.898502229999999

 $00:02:37.980 \longrightarrow 00:02:39.640$ Anet believe address and email

NOTE Confidence: 0.898502229999999

 $00:02:39.694 \longrightarrow 00:02:41.486$ address are part of that as well.

NOTE Confidence: 0.898502229999999

00:02:41.490 --> 00:02:43.387 I understand that when folks are signing

NOTE Confidence: 0.898502229999999

00:02:43.387 --> 00:02:45.140 up through the retail pharmacies,

NOTE Confidence: 0.898502229999999

 $00:02:45.140 \longrightarrow 00:02:47.030$ they may also have to provide

NOTE Confidence: 0.898502229999999

 $00:02:47.030 \longrightarrow 00:02:48.652$ some health information in order

NOTE Confidence: 0.898502229999999

 $00:02:48.652 \longrightarrow 00:02:50.440$ to register for the vaccine so.

NOTE Confidence: 0.898502229999999

00:02:50.440 --> 00:02:52.351 Just wondering if you guys are getting

NOTE Confidence: 0.898502229999999

 $00:02:52.351 \longrightarrow 00:02:54.046$ any feedback in terms of communities

NOTE Confidence: 0.898502229999999

 $00{:}02{:}54.046 \dashrightarrow 00{:}02{:}55.957$ that may be let more reluctant to

NOTE Confidence: 0.898502229999999

 $00{:}02{:}56.014 \dashrightarrow 00{:}02{:}57.925$ provide this kind of personal data to

NOTE Confidence: 0.898502229999999

00:02:57.925 --> 00:02:59.854 either the state or the health system.

 $00:02:59.854 \longrightarrow 00:03:00.406$ An answer.

NOTE Confidence: 0.898502229999999

 $00:03:00.410 \longrightarrow 00:03:01.518$ Any thoughts about that?

NOTE Confidence: 0.80956733

00:03:02.160 --> 00:03:04.197 Yeah, I'll offer a thought or two

NOTE Confidence: 0.80956733

 $00:03:04.197 \longrightarrow 00:03:05.838$ and then breeder can probably

NOTE Confidence: 0.80956733

 $00:03:05.838 \longrightarrow 00:03:07.938$ speak with more specificity at yes.

NOTE Confidence: 0.80956733

 $00:03:07.940 \longrightarrow 00:03:09.540$ And depending on the system,

NOTE Confidence: 0.80956733

 $00{:}03{:}09.540 \dashrightarrow 00{:}03{:}10.824$ depending on how individuals

NOTE Confidence: 0.80956733

 $00:03:10.824 \longrightarrow 00:03:11.787$ are accessing vaccines,

NOTE Confidence: 0.80956733

 $00{:}03{:}11.790 \dashrightarrow 00{:}03{:}13.716$ whether it's through the pharmacy clinics,

NOTE Confidence: 0.80956733

 $00:03:13.720 \longrightarrow 00:03:15.640$ whether it's through a health system,

NOTE Confidence: 0.80956733

 $00:03:15.640 \longrightarrow 00:03:17.566$ whether it's through a community clinic,

NOTE Confidence: 0.80956733

 $00:03:17.570 \longrightarrow 00:03:19.175$ there are different kinds of

NOTE Confidence: 0.80956733

 $00:03:19.175 \longrightarrow 00:03:20.780$ information required in some cases,

NOTE Confidence: 0.80956733

 $00:03:20.780 \longrightarrow 00:03:22.761$ part of sort of the medical prescreen

NOTE Confidence: 0.80956733

00:03:22.761 --> 00:03:24.738 to see whether individuals may be

NOTE Confidence: 0.80956733

00:03:24.738 --> 00:03:26.880 pregnant or have histories of allergies,

 $00:03:26.880 \longrightarrow 00:03:28.620$ things that help dictate issues

NOTE Confidence: 0.80956733

 $00{:}03{:}28.620 \dashrightarrow 00{:}03{:}30.012$ around observation or additional

NOTE Confidence: 0.80956733

00:03:30.012 --> 00:03:31.368 information that might be shared.

NOTE Confidence: 0.80956733

 $00:03:31.370 \longrightarrow 00:03:32.750$ And also again, right.

NOTE Confidence: 0.80956733

 $00:03:32.750 \longrightarrow 00:03:34.475$ Some personal information to share,

NOTE Confidence: 0.80956733

00:03:34.480 --> 00:03:36.080 whether it's registration for email

NOTE Confidence: 0.80956733

 $00:03:36.080 \longrightarrow 00:03:38.010$ addresses or even at vaccination sites,

NOTE Confidence: 0.80956733

 $00{:}03{:}38.010 \dashrightarrow 00{:}03{:}38.970$ vaccination providers can

NOTE Confidence: 0.80956733

 $00:03:38.970 \longrightarrow 00:03:39.930$ ask for identification,

NOTE Confidence: 0.80956733

 $00{:}03{:}39.930 \dashrightarrow 00{:}03{:}42.026$ but it's been very clear at the state

NOTE Confidence: 0.80956733

 $00:03:42.026 \longrightarrow 00:03:44.480$ level and hopefully diffused all of the

NOTE Confidence: 0.80956733

 $00:03:44.480 \longrightarrow 00:03:46.350$ vaccination providers that they have.

NOTE Confidence: 0.80956733

00:03:46.350 --> 00:03:48.276 An ID can be asked for,

NOTE Confidence: 0.80956733

 $00:03:48.280 \longrightarrow 00:03:50.496$ but certainly 1 does not have to be

NOTE Confidence: 0.80956733

 $00:03:50.496 \longrightarrow 00:03:52.612$ presented and folks should not be turned

 $00:03:52.612 \longrightarrow 00:03:55.020$ away if they don't present identification.

NOTE Confidence: 0.80956733

 $00{:}03{:}55.020 \dashrightarrow 00{:}03{:}57.176$ So really trying very hard to take

NOTE Confidence: 0.80956733

 $00:03:57.176 \longrightarrow 00:03:59.225$ down any barriers or concerns that

NOTE Confidence: 0.80956733

00:03:59.225 --> 00:04:01.355 might keep people away from the

NOTE Confidence: 0.80956733

 $00:04:01.355 \longrightarrow 00:04:02.898$ vaccination system even at the.

NOTE Confidence: 0.80956733

 $00:04:02.900 \longrightarrow 00:04:04.105$ I guess the theoretical expense

NOTE Confidence: 0.80956733

 $00:04:04.105 \longrightarrow 00:04:05.310$ that someone could could could

NOTE Confidence: 0.80956733

00:04:05.349 --> 00:04:06.669 could misrepresent their identity,

NOTE Confidence: 0.80956733

 $00{:}04{:}06.670 \dashrightarrow 00{:}04{:}08.814$ and that's that's a trade off the states.

NOTE Confidence: 0.80956733

 $00:04:08.820 \longrightarrow 00:04:10.353$ Happy to make in order to ensure

NOTE Confidence: 0.80956733

00:04:10.353 --> 00:04:11.978 that folks don't feel concerned about

NOTE Confidence: 0.80956733

00:04:11.978 --> 00:04:13.198 privacy or personal information

NOTE Confidence: 0.80956733

 $00:04:13.198 \longrightarrow 00:04:15.010$ standing in the way of vaccination.

NOTE Confidence: 0.7585204

00:04:16.930 --> 00:04:20.509 Yeah, exactly, at least it you know Haven.

NOTE Confidence: 0.85839653

00:04:20.510 --> 00:04:23.048 In the scheduling process, you know

NOTE Confidence: 0.85839653

 $00:04:23.048 \longrightarrow 00:04:25.789$ there is some information that is asked,

00:04:25.790 --> 00:04:26.966 including insurance information.

NOTE Confidence: 0.85839653

 $00{:}04{:}26.966 \dashrightarrow 00{:}04{:}30.250$ You don't need insurance to get a vaccine,

NOTE Confidence: 0.85839653

 $00:04:30.250 \longrightarrow 00:04:32.866$ and if people are uninsured like

NOTE Confidence: 0.85839653

 $00:04:32.866 \longrightarrow 00:04:35.528$ they absolutely will not get a bill.

NOTE Confidence: 0.85839653

 $00:04:35.530 \longrightarrow 00:04:39.400$ But if they are insured then we do billing

NOTE Confidence: 0.85839653

 $00:04:39.400 \longrightarrow 00:04:42.026$ administration fee to their to their payer.

NOTE Confidence: 0.85839653

 $00:04:42.030 \longrightarrow 00:04:44.226$ But don't ask for any additional

NOTE Confidence: 0.85839653

 $00:04:44.226 \longrightarrow 00:04:46.490$ money from the patient themselves.

NOTE Confidence: 0.85839653

 $00:04:46.490 \longrightarrow 00:04:49.172$ But yes, we also do have

NOTE Confidence: 0.85839653

 $00:04:49.172 \longrightarrow 00:04:50.513$ some information about.

NOTE Confidence: 0.85839653

 $00{:}04{:}50.520 \dashrightarrow 00{:}04{:}52.816$ Allergies and other things to let us

NOTE Confidence: 0.85839653

 $00:04:52.816 \longrightarrow 00:04:55.904$ know how long the person needs to stay

NOTE Confidence: 0.85839653

 $00{:}04{:}55.904 \dashrightarrow 00{:}04{:}57.939$ in the observation period afterwards.

NOTE Confidence: 0.85839653

 $00{:}04{:}57.940 \dashrightarrow 00{:}04{:}59.795$ So certainly you know some

NOTE Confidence: 0.85839653

 $00:04:59.795 \longrightarrow 00:05:00.908$ of these questions,

 $00:05:00.910 \longrightarrow 00:05:03.902$ may you know may feel personal to some

NOTE Confidence: 0.85839653

 $00:05:03.902 \longrightarrow 00:05:06.868$ I have not heard of anyone being too

NOTE Confidence: 0.85839653

 $00:05:06.868 \longrightarrow 00:05:09.172$ like so uncomfortable with answering the

NOTE Confidence: 0.85839653

 $00:05:09.172 \longrightarrow 00:05:11.300$ questions that they did not schedule.

NOTE Confidence: 0.85839653

00:05:11.300 --> 00:05:12.024 You know,

NOTE Confidence: 0.85839653

 $00:05:12.024 \longrightarrow 00:05:15.380$ at least like to the call center phone line.

NOTE Confidence: 0.85839653

 $00:05:15.380 \longrightarrow 00:05:18.061$ Of course I have no idea if

NOTE Confidence: 0.85839653

 $00:05:18.061 \longrightarrow 00:05:19.655$ someone felt uncomfortable online

NOTE Confidence: 0.85839653

 $00:05:19.655 \longrightarrow 00:05:21.490$ and then decided not to.

NOTE Confidence: 0.85839653

00:05:21.490 --> 00:05:23.820 Continue on with the process,

NOTE Confidence: 0.85839653

 $00{:}05{:}23.820 \dashrightarrow 00{:}05{:}26.406$ but from our listening sessions and

NOTE Confidence: 0.85839653

 $00:05:26.406 \longrightarrow 00:05:28.950$ another input from the community.

NOTE Confidence: 0.85839653

 $00:05:28.950 \longrightarrow 00:05:31.482$ That's not something that we've heard

NOTE Confidence: 0.85839653

 $00{:}05{:}31.482 \dashrightarrow 00{:}05{:}34.539$ has deterred people from getting vaccinated.

NOTE Confidence: 0.8444101

 $00:05:35.820 \longrightarrow 00:05:38.060$ Thanks so much for that and I.

NOTE Confidence: 0.8444101

 $00:05:38.060 \longrightarrow 00:05:40.124$ I mean, I think it certainly is a

 $00:05:40.124 \longrightarrow 00:05:42.264$ credit that that there are listening

NOTE Confidence: 0.8444101

 $00:05:42.264 \longrightarrow 00:05:44.214$ sessions happening that there is

NOTE Confidence: 0.8444101

00:05:44.214 --> 00:05:45.863 engagement with the community to

NOTE Confidence: 0.8444101

 $00:05:45.863 \longrightarrow 00:05:47.651$ try to try to understand this.

NOTE Confidence: 0.8444101

 $00{:}05{:}47.660 \dashrightarrow 00{:}05{:}49.910$ I see a question in the chat from Joe

NOTE Confidence: 0.8444101

 $00:05:49.910 \longrightarrow 00:05:52.270$ Williams saying I wonder what some of

NOTE Confidence: 0.8444101

 $00:05:52.270 \longrightarrow 00:05:53.638$ the educational programming around

NOTE Confidence: 0.8444101

 $00:05:53.701 \longrightarrow 00:05:55.656$ vaccination looks like for refugees.

NOTE Confidence: 0.8444101

00:05:55.660 --> 00:05:57.260 Slash non English speakers, slash,

NOTE Confidence: 0.8444101

 $00{:}05{:}57.260 \dashrightarrow 00{:}05{:}58.540$ lower socioeconomic status communities.

NOTE Confidence: 0.8444101

00:05:58.540 --> 00:06:00.460 Have there been thoughts on digital

NOTE Confidence: 0.8444101

 $00{:}06{:}00.511 \dashrightarrow 00{:}06{:}02.071$ videos or narrative storytelling to

NOTE Confidence: 0.8444101

 $00{:}06{:}02.071 \dashrightarrow 00{:}06{:}03.631$ help these communities understand the

NOTE Confidence: 0.8444101

 $00{:}06{:}03.677 \dashrightarrow 00{:}06{:}05.257$ importance and safety of vaccination?

NOTE Confidence: 0.84473366

 $00:06:07.660 \longrightarrow 00:06:10.582$ So I'll say yes, there's been

 $00:06:10.582 \longrightarrow 00:06:13.909$ a lot of thought around that,

NOTE Confidence: 0.84473366

 $00:06:13.910 \longrightarrow 00:06:16.042$ and efforts as well.

NOTE Confidence: 0.84473366

 $00:06:16.042 \longrightarrow 00:06:19.834$ It is certainly a challenge given the

NOTE Confidence: 0.84473366

 $00:06:19.834 \longrightarrow 00:06:23.285$ virtual world where forced to be in.

NOTE Confidence: 0.84473366

 $00:06:23.290 \longrightarrow 00:06:26.479$ So for example.

NOTE Confidence: 0.84473366

00:06:26.480 --> 00:06:29.245 We have developed a very simple like

NOTE Confidence: 0.84473366

 $00:06:29.245 \longrightarrow 00:06:31.873$ fact sheet about the vaccines using

NOTE Confidence: 0.84473366

 $00:06:31.873 \longrightarrow 00:06:34.603$ kind of the best evidence around

NOTE Confidence: 0.84473366

 $00{:}06{:}34.603 \mathrel{--}{>} 00{:}06{:}36.629$ effective communication and messaging

NOTE Confidence: 0.84473366

 $00:06:36.629 \longrightarrow 00:06:39.623$ about vaccination that has a version

NOTE Confidence: 0.84473366

 $00{:}06{:}39.623 \dashrightarrow 00{:}06{:}42.706$ at like the 6th grade level and also

NOTE Confidence: 0.84473366

 $00:06:42.706 \longrightarrow 00:06:45.620$ a third grade level and in multiple

NOTE Confidence: 0.84473366

00:06:45.620 --> 00:06:48.206 languages that we hope can dispel

NOTE Confidence: 0.84473366

 $00:06:48.289 \longrightarrow 00:06:51.034$ some myths and misconceptions about

NOTE Confidence: 0.84473366

 $00:06:51.034 \longrightarrow 00:06:53.779$ the vaccine and disseminating that

NOTE Confidence: 0.84473366

 $00:06:53.780 \longrightarrow 00:06:55.772$ through community based organizations

 $00:06:55.772 \longrightarrow 00:06:57.764$ through through the state.

NOTE Confidence: 0.84473366

 $00{:}06{:}57.770 \dashrightarrow 00{:}07{:}01.730$ Health systems and so on and so forth.

NOTE Confidence: 0.84473366

 $00:07:01.730 \longrightarrow 00:07:04.658$ I think the videos and narrative

NOTE Confidence: 0.84473366

 $00:07:04.658 \longrightarrow 00:07:07.789$ storing it telling is also really,

NOTE Confidence: 0.84473366

 $00:07:07.790 \longrightarrow 00:07:10.820$ really critical and so our communications

NOTE Confidence: 0.84473366

00:07:10.820 --> 00:07:12.840 Department is certainly developing

NOTE Confidence: 0.84473366

 $00:07:12.840 \longrightarrow 00:07:16.370$ some and we try to have clips of

NOTE Confidence: 0.84473366

 $00:07:16.370 \longrightarrow 00:07:18.765$ especially of physicians and clinicians

NOTE Confidence: 0.84473366

00:07:18.765 --> 00:07:21.930 of color providing that information,

NOTE Confidence: 0.84473366

 $00:07:21.930 \longrightarrow 00:07:24.455$ and also especially in other

NOTE Confidence: 0.84473366

00:07:24.455 --> 00:07:25.970 languages besides English.

NOTE Confidence: 0.84473366

 $00:07:25.970 \longrightarrow 00:07:29.505$ But there are a number of resources

NOTE Confidence: 0.84473366

 $00{:}07{:}29.505 \dashrightarrow 00{:}07{:}32.020$ with that information, you know.

NOTE Confidence: 0.84473366

 $00:07:32.020 \longrightarrow 00:07:34.652$ Externally as well, and that is 1.

NOTE Confidence: 0.84473366

 $00:07:34.652 \longrightarrow 00:07:37.403$ Nice thing about the Internet and you can be

 $00:07:37.403 \longrightarrow 00:07:39.713$ can be shared widely and disseminated widely.

NOTE Confidence: 0.84473366

 $00:07:39.720 \longrightarrow 00:07:41.270$ Whether it was, you know,

NOTE Confidence: 0.84473366

 $00:07:41.270 \longrightarrow 00:07:43.910$ homegrown or not.

NOTE Confidence: 0.84473366

 $00:07:43.910 \longrightarrow 00:07:45.410$ We've also been holding a

NOTE Confidence: 0.84473366

00:07:45.410 --> 00:07:46.910 number of town halls again,

NOTE Confidence: 0.84473366

 $00{:}07{:}46.910 \dashrightarrow 00{:}07{:}48.814$ so people can kind of ask their

NOTE Confidence: 0.84473366

 $00{:}07{:}48.814 \dashrightarrow 00{:}07{:}50.510$ questions and have them addressed.

NOTE Confidence: 0.84473366

 $00:07:50.510 \longrightarrow 00:07:52.250$ Although one thing I am starting

NOTE Confidence: 0.84473366

 $00{:}07{:}52.250 --> 00{:}07{:}54.690$ to hear is is a lot of people

NOTE Confidence: 0.84473366

00:07:54.690 --> 00:07:56.508 you know can't can't make those.

NOTE Confidence: 0.84473366

00:07:56.510 --> 00:07:59.210 I mean, even if they are in the evenings,

NOTE Confidence: 0.84473366

 $00:07:59.210 \longrightarrow 00:07:59.832$ you know,

NOTE Confidence: 0.84473366

 $00:07:59.832 \longrightarrow 00:08:02.009$ not everyone wants to be on the

NOTE Confidence: 0.84473366

 $00{:}08{:}02.009 \dashrightarrow 00{:}08{:}04.007$ same at 7:00 PM on a weekday.

NOTE Confidence: 0.84473366 00:08:04.010 --> 00:08:04.306 Or, NOTE Confidence: 0.84473366

 $00:08:04.306 \longrightarrow 00:08:06.082$ you know they're tired after after

 $00:08:06.082 \longrightarrow 00:08:07.910$ working or busy on the weekends.

NOTE Confidence: 0.84473366

 $00{:}08{:}07.910 --> 00{:}08{:}09.410$ And so that's you, know,

NOTE Confidence: 0.84473366

 $00:08:09.410 \longrightarrow 00:08:10.104$ a challenge,

NOTE Confidence: 0.84473366

00:08:10.104 --> 00:08:11.839 but we're certainly still holding

NOTE Confidence: 0.84473366

 $00:08:11.839 \longrightarrow 00:08:13.569$ them and trying both through

NOTE Confidence: 0.84473366

 $00:08:13.569 \longrightarrow 00:08:15.459$ the health system and then also.

NOTE Confidence: 0.84473366

 $00:08:15.460 \longrightarrow 00:08:17.707$ Through the state there is a program

NOTE Confidence: 0.84473366

 $00{:}08{:}17.707 \dashrightarrow 00{:}08{:}19.486$ where clinicians can partner with

NOTE Confidence: 0.84473366

 $00:08:19.486 \longrightarrow 00:08:21.371$ leadership from a community based

NOTE Confidence: 0.84473366

 $00{:}08{:}21.371 \dashrightarrow 00{:}08{:}23.311$ organization to hold a session

NOTE Confidence: 0.84473366

 $00{:}08{:}23.311 \dashrightarrow 00{:}08{:}25.171$ where they can directly address

NOTE Confidence: 0.84473366

 $00:08:25.171 \longrightarrow 00:08:27.012$ people's questions about the vaccine.

NOTE Confidence: 0.84473366

 $00{:}08{:}27.012 \dashrightarrow 00{:}08{:}29.539$ So those are some of the things

NOTE Confidence: 0.84473366

00:08:29.539 --> 00:08:32.093 I'm aware of and Jason you may

NOTE Confidence: 0.84473366

 $00:08:32.093 \longrightarrow 00:08:33.505$ have others as well.

 $00:08:33.510 \longrightarrow 00:08:33.870$ Yeah,

NOTE Confidence: 0.84473366

 $00:08:33.870 \longrightarrow 00:08:34.230$ similar

NOTE Confidence: 0.8368564

 $00:08:34.230 \longrightarrow 00:08:36.348$ things happening in terms of town

NOTE Confidence: 0.8368564

 $00:08:36.348 \longrightarrow 00:08:38.214$ halls and developing materials and

NOTE Confidence: 0.8368564

 $00:08:38.214 \longrightarrow 00:08:40.174$ recognizing the while public service

NOTE Confidence: 0.8368564

 $00:08:40.174 \longrightarrow 00:08:41.742$ announcement campaigns and CDC

NOTE Confidence: 0.8368564

 $00:08:41.800 \longrightarrow 00:08:43.756$ websites are one way to disseminate

NOTE Confidence: 0.8368564

 $00{:}08{:}43.756 \dashrightarrow 00{:}08{:}45.820$ the kind of information that can

NOTE Confidence: 0.8368564

 $00:08:45.820 \longrightarrow 00:08:47.340$ correct some misperceptions that.

NOTE Confidence: 0.8368564

 $00:08:47.340 \longrightarrow 00:08:49.517$ Has a limited reach and trying to

NOTE Confidence: 0.8368564

 $00:08:49.517 \longrightarrow 00:08:51.261$ identify more tailored programs that

NOTE Confidence: 0.8368564

00:08:51.261 --> 00:08:53.146 are more readily identifiable and

NOTE Confidence: 0.8368564

 $00:08:53.146 \longrightarrow 00:08:55.117$ recognizable and and iaccessible to

NOTE Confidence: 0.8368564

 $00:08:55.117 \longrightarrow 00:08:56.669$ particular groups and communities

NOTE Confidence: 0.8368564

 $00:08:56.669 \longrightarrow 00:08:58.854$ and the concerns they may have.

NOTE Confidence: 0.8368564

 $00:08:58.854 \longrightarrow 00:09:01.350$ I think is is one of those really

00:09:01.426 --> 00:09:04.036 critical efforts as we move forward,

NOTE Confidence: 0.8368564

 $00:09:04.040 \longrightarrow 00:09:05.850$ I'll just add one point.

NOTE Confidence: 0.8368564

 $00:09:05.850 \longrightarrow 00:09:06.945$ Just very briefly.

NOTE Confidence: 0.8368564

 $00:09:06.945 \longrightarrow 00:09:09.135$ Is that because of the latest

NOTE Confidence: 0.8368564

00:09:09.135 --> 00:09:11.193 relief bill that passed through

NOTE Confidence: 0.8368564

 $00:09:11.193 \longrightarrow 00:09:13.623$ Congress and was signed by President

NOTE Confidence: 0.8368564

 $00:09:13.695 \longrightarrow 00:09:15.285$ Biden a week or two ago,

NOTE Confidence: 0.8368564

 $00:09:15.290 \longrightarrow 00:09:17.360$ there is a tremendous amount.

NOTE Confidence: 0.8368564

 $00:09:17.360 \longrightarrow 00:09:19.235$ Of additional resources flowing to

NOTE Confidence: 0.8368564

 $00:09:19.235 \longrightarrow 00:09:21.526$ the states imminently to support both

NOTE Confidence: 0.8368564

 $00{:}09{:}21.526 \to 00{:}09{:}23.674$ the vaccination rollout and to support

NOTE Confidence: 0.8368564

 $00:09:23.674 \longrightarrow 00:09:25.760$ expanding the public health workforce,

NOTE Confidence: 0.8368564

 $00:09:25.760 \longrightarrow 00:09:28.406$ a lot of those efforts will go

NOTE Confidence: 0.8368564

 $00:09:28.406 \longrightarrow 00:09:29.970$ towards continuing the this.

NOTE Confidence: 0.8368564

 $00:09:29.970 \longrightarrow 00:09:30.320$ This,

 $00:09:30.320 \longrightarrow 00:09:32.420$ I think pretty difficult work that

NOTE Confidence: 0.8368564

 $00:09:32.420 \longrightarrow 00:09:34.935$ will lie ahead in terms of reaching

NOTE Confidence: 0.8368564

 $00:09:34.935 \longrightarrow 00:09:37.035$ all of our communities of reaching

NOTE Confidence: 0.8368564

 $00:09:37.101 \longrightarrow 00:09:39.261$ more broadly and equitable vaccination

NOTE Confidence: 0.8368564

00:09:39.261 --> 00:09:42.192 program by building the kinds of facilities,

NOTE Confidence: 0.8368564

 $00:09:42.192 \longrightarrow 00:09:43.716$ the resources, the staff,

NOTE Confidence: 0.8368564

 $00:09:43.720 \longrightarrow 00:09:44.420$ the personnel.

NOTE Confidence: 0.8368564

 $00:09:44.420 \longrightarrow 00:09:46.870$ But then I think we'll start seeing

NOTE Confidence: 0.8368564

 $00{:}09{:}46.870 \dashrightarrow 00{:}09{:}48.709$ concrete applications of those

NOTE Confidence: 0.8368564

 $00:09:48.709 \longrightarrow 00:09:50.609$ additional resources long overdue.

NOTE Confidence: 0.8368564

00:09:50.610 --> 00:09:51.810 If I could editorialize,

NOTE Confidence: 0.8368564

 $00:09:51.810 \longrightarrow 00:09:53.010$ that will help again,

NOTE Confidence: 0.8368564

 $00:09:53.010 \longrightarrow 00:09:54.810$ support that at the state level,

NOTE Confidence: 0.8368564

 $00:09:54.810 \longrightarrow 00:09:55.774$ recognizing that that's one

NOTE Confidence: 0.8368564

 $00:09:55.774 \longrightarrow 00:09:57.626$ piece that can work in a more

NOTE Confidence: 0.8368564

 $00{:}09{:}57.626 \dashrightarrow 00{:}09{:}59.066$ comprehensive solution to address

 $00:09:59.066 \longrightarrow 00:10:00.506$ address these challenges ahead.

NOTE Confidence: 0.8451335

 $00:10:02.440 \longrightarrow 00:10:04.774$ Wonderful, thanks so much to both of you.

NOTE Confidence: 0.8451335

 $00:10:04.780 \longrightarrow 00:10:06.884$ At this point, let me ask all of

NOTE Confidence: 0.8451335

 $00:10:06.884 \longrightarrow 00:10:08.736$ our other panelists to go ahead

NOTE Confidence: 0.8451335

 $00:10:08.736 \longrightarrow 00:10:10.620$ and turn your video back on.

NOTE Confidence: 0.8451335

 $00:10:10.620 \longrightarrow 00:10:11.975$ There's a couple of questions

NOTE Confidence: 0.8451335

 $00:10:11.975 \longrightarrow 00:10:14.006$ in the chat that I think would

NOTE Confidence: 0.8451335

 $00{:}10{:}14.006 \dashrightarrow 00{:}10{:}15.866$ be good to have some discussion.

NOTE Confidence: 0.8451335

00:10:15.870 --> 00:10:17.235 You know, one question specifically

NOTE Confidence: 0.8451335

 $00:10:17.235 \longrightarrow 00:10:18.600$ to Jenny's if you're hearing

NOTE Confidence: 0.8451335

 $00{:}10{:}18.645 \dashrightarrow 00{:}10{:}19.668$ anything about refugees.

NOTE Confidence: 0.8451335

00:10:19.670 --> 00:10:20.838 Skepticism about the vaccine,

NOTE Confidence: 0.8451335

 $00:10:20.838 \longrightarrow 00:10:22.590$ that would be good to share,

NOTE Confidence: 0.8451335

 $00:10:22.590 \longrightarrow 00:10:24.627$ but also for all of our panelists,

NOTE Confidence: 0.8451335

 $00:10:24.630 \longrightarrow 00:10:26.454$ and certainly for attendees to you

00:10:26.454 --> 00:10:28.717 could put answers in the chat you know,

NOTE Confidence: 0.8451335

 $00{:}10{:}28.720 \dashrightarrow 00{:}10{:}30.645$ would love to hear more about your

NOTE Confidence: 0.8451335

 $00{:}10{:}30.645 \dashrightarrow 00{:}10{:}31.930$ specific experiences with refugees.

NOTE Confidence: 0.8451335

 $00:10:31.930 \longrightarrow 00:10:33.014$ Acceptance of the vaccine.

NOTE Confidence: 0.8451335

00:10:33.014 --> 00:10:35.296 So I don't know if any of our

NOTE Confidence: 0.8451335

 $00:10:35.296 \longrightarrow 00:10:36.480$ panelists Jenny would do.

NOTE Confidence: 0.8451335

 $00:10:36.480 \longrightarrow 00:10:38.405$ You want to start with some comments?

NOTE Confidence: 0.8741729

00:10:38.410 --> 00:10:41.315 I yeah, I'm happy to start a

NOTE Confidence: 0.8741729

00:10:41.315 --> 00:10:43.878 few things that I have heard.

NOTE Confidence: 0.8741729

00:10:43.880 --> 00:10:47.735 The first being. I actually spoke

NOTE Confidence: 0.8741729

 $00:10:47.735 \longrightarrow 00:10:50.285$ with PAMAM our health and Wellness

NOTE Confidence: 0.8741729

 $00:10:50.285 \longrightarrow 00:10:52.587$ Manager earlier today about this.

NOTE Confidence: 0.8741729

 $00:10:52.590 \longrightarrow 00:10:54.534$ She said, you know,

NOTE Confidence: 0.8741729

 $00:10:54.534 \longrightarrow 00:10:58.300$ in outreach to clients about the vaccine.

NOTE Confidence: 0.8741729

 $00:10:58.300 \longrightarrow 00:10:59.240$ They were like, well,

NOTE Confidence: 0.8741729

 $00{:}10{:}59.240 \dashrightarrow 00{:}11{:}01.129$ you called this a year ago and you

 $00:11:01.129 \longrightarrow 00:11:02.817$ told us to stay home and we've been

NOTE Confidence: 0.8741729

00:11:02.869 --> 00:11:04.519 staying home and we haven't gone

NOTE Confidence: 0.8741729

 $00:11:04.519 \longrightarrow 00:11:06.065$ anywhere and we haven't gotten

NOTE Confidence: 0.8741729

 $00:11:06.065 \longrightarrow 00:11:09.180$ covid so we don't need the vaccine.

NOTE Confidence: 0.8741729

 $00:11:09.180 \longrightarrow 00:11:12.006$ And so that's been one thing.

NOTE Confidence: 0.8741729

 $00:11:12.010 \longrightarrow 00:11:14.416$ An another thing is just like,

NOTE Confidence: 0.8741729

00:11:14.420 --> 00:11:16.420 yeah, there's some, I think.

NOTE Confidence: 0.78199214

00:11:18.650 --> 00:11:20.120 Yeah, some some you know.

NOTE Confidence: 0.78199214

 $00:11:20.120 \longrightarrow 00:11:22.604$ I don't know if you want to call them

NOTE Confidence: 0.78199214

 $00{:}11{:}22.604 \longrightarrow 00{:}11{:}25.370$ conspiracy theories or what, but.

NOTE Confidence: 0.78199214

00:11:25.370 --> 00:11:27.752 You know, like I've heard that

NOTE Confidence: 0.78199214

 $00:11:27.752 \longrightarrow 00:11:30.240$ this is satanic or like it's,

NOTE Confidence: 0.78199214

00:11:30.240 --> 00:11:32.488 you know, black magic.

NOTE Confidence: 0.78199214

 $00{:}11{:}32.488 \dashrightarrow 00{:}11{:}35.860$ Things like that have come up.

NOTE Confidence: 0.78199214

 $00:11:35.860 \longrightarrow 00:11:39.305$ One thing that I haven't

00:11:39.305 --> 00:11:43.390 necessarily heard from any of our.

NOTE Confidence: 0.78199214

00:11:43.390 --> 00:11:44.498 Any of our clients,

NOTE Confidence: 0.78199214

 $00:11:44.498 \longrightarrow 00:11:46.510$ but something that kind of like was

NOTE Confidence: 0.78199214

 $00:11:46.510 \longrightarrow 00:11:48.526$ sparked by something I heard in the

NOTE Confidence: 0.78199214

 $00:11:48.526 \longrightarrow 00:11:50.467$ news recently was the Catholic Church.

NOTE Confidence: 0.78199214

00:11:50.470 --> 00:11:52.180 Kind of.

NOTE Confidence: 0.78199214

 $00{:}11{:}52.180 \dashrightarrow 00{:}11{:}54.175$ Denouncing the Johnson and Johnson

NOTE Confidence: 0.78199214

 $00{:}11{:}54.175 \dashrightarrow 00{:}11{:}57.235$ vaccine based on the way that it was

NOTE Confidence: 0.78199214

 $00{:}11{:}57.235 \dashrightarrow 00{:}11{:}59.221$ developed and thinking about a lot

NOTE Confidence: 0.78199214

00:11:59.221 --> 00:12:01.587 of our undocumented clients and,

NOTE Confidence: 0.78199214

00:12:01.590 --> 00:12:04.425 you know, maybe their their

NOTE Confidence: 0.78199214

 $00:12:04.425 \longrightarrow 00:12:06.126$ correlation with Catholicism.

NOTE Confidence: 0.78199214

00:12:06.130 --> 00:12:08.595 Just being like yeah pre

NOTE Confidence: 0.78199214

 $00:12:08.595 \longrightarrow 00:12:10.567$ Emptive thought of mine.

NOTE Confidence: 0.78199214

00:12:10.570 --> 00:12:13.486 But again, not sure that that

NOTE Confidence: 0.78199214

 $00:12:13.486 \longrightarrow 00:12:16.679$ is like I haven't heard that.

 $00:12:16.680 \longrightarrow 00:12:18.590$ Personally.

NOTE Confidence: 0.78199214

 $00{:}12{:}18.590 \dashrightarrow 00{:}12{:}21.020$ Silent that gives like a bit of a bit

NOTE Confidence: 0.78199214

 $00:12:21.020 \longrightarrow 00:12:23.403$ of a starting point as to what are

NOTE Confidence: 0.78199214

00:12:23.403 --> 00:12:26.176 some of the things going around, but.

NOTE Confidence: 0.78199214

00:12:26.176 --> 00:12:28.556 But I see heads nodding,

NOTE Confidence: 0.78199214

 $00:12:28.560 \longrightarrow 00:12:30.520$ so that's that's what you're

NOTE Confidence: 0.78199214

 $00:12:30.520 \longrightarrow 00:12:32.480$ describing is clearly not uncommon.

NOTE Confidence: 0.78811973

 $00{:}12{:}34.820 \dashrightarrow 00{:}12{:}36.975$ Yeah, quickly time and saying I've

NOTE Confidence: 0.78811973

 $00:12:36.975 \longrightarrow 00:12:38.780$ definitely heard some of those

NOTE Confidence: 0.78811973

 $00{:}12{:}38.842 \to 00{:}12{:}40.819$ things as well. Especially since the

NOTE Confidence: 0.78811973

00:12:40.819 --> 00:12:43.290 Janssen or JNJ vaccine recently came out.

NOTE Confidence: 0.78811973

 $00:12:43.290 \longrightarrow 00:12:46.400$ I guess one one piece of good news is that

NOTE Confidence: 0.78811973

 $00{:}12{:}46.481 \dashrightarrow 00{:}12{:}49.265$ we do have really good access to other

NOTE Confidence: 0.78811973

00:12:49.265 --> 00:12:52.117 types of vaccines here in the states,

NOTE Confidence: 0.78811973

 $00:12:52.120 \longrightarrow 00:12:53.885$ so you know someone was

 $00:12:53.885 \longrightarrow 00:12:55.650$ really opposed to Janssen JNJ.

NOTE Confidence: 0.78811973

 $00{:}12{:}55.650 \dashrightarrow 00{:}12{:}58.466$ It's easy for them to get Pfizer radar.

NOTE Confidence: 0.78811973

00:12:58.470 --> 00:13:00.588 No, I do think it's important,

NOTE Confidence: 0.78811973

00:13:00.590 --> 00:13:03.054 you know, to to counter those things,

NOTE Confidence: 0.78811973

 $00:13:03.060 \longrightarrow 00:13:05.958$ but maybe not quite as critical.

NOTE Confidence: 0.78811973

 $00{:}13{:}05.960 \dashrightarrow 00{:}13{:}08.856$ As far as the not needing the vaccine,

NOTE Confidence: 0.78811973

00:13:08.860 --> 00:13:09.919 because you know,

NOTE Confidence: 0.78811973

00:13:09.919 --> 00:13:12.827 staying at home or you know you've been

NOTE Confidence: 0.78811973

 $00{:}13{:}12.827 \dashrightarrow 00{:}13{:}15.723$ asking for so long and haven't gotten that,

NOTE Confidence: 0.78811973

 $00:13:15.730 \longrightarrow 00:13:17.908$ that is something that we hear.

NOTE Confidence: 0.78811973

 $00{:}13{:}17.910 \dashrightarrow 00{:}13{:}20.082$ Also, there's a contingent of folks

NOTE Confidence: 0.78811973

00:13:20.082 --> 00:13:22.250 that don't don't believe the severity

NOTE Confidence: 0.78811973

 $00:13:22.250 \longrightarrow 00:13:24.218$ of of COVID-19 either as another

NOTE Confidence: 0.78811973

00:13:24.218 --> 00:13:26.407 key group that doesn't see the

NOTE Confidence: 0.78811973

 $00:13:26.407 \longrightarrow 00:13:28.035$ importance of getting vaccinated.

NOTE Confidence: 0.78811973

 $00{:}13{:}28.040 \dashrightarrow 00{:}13{:}30.574$ And I think for for those folks,

00:13:30.580 --> 00:13:32.390 I think understanding that well,

NOTE Confidence: 0.78811973

00:13:32.390 --> 00:13:34.400 you don't know what they want

NOTE Confidence: 0.78811973

 $00:13:34.400 \longrightarrow 00:13:36.839$ to stay in their homes forever.

NOTE Confidence: 0.78811973

 $00:13:36.840 \longrightarrow 00:13:39.816$ Anything for doing it for a year but

NOTE Confidence: 0.78811973

00:13:39.816 --> 00:13:43.278 but the vaccine is sort of the way out,

NOTE Confidence: 0.78811973

 $00:13:43.280 \longrightarrow 00:13:45.554$ kind of back towards normal life

NOTE Confidence: 0.78811973

 $00:13:45.554 \longrightarrow 00:13:47.070$ and trying to communicate.

NOTE Confidence: 0.78811973

 $00:13:47.070 \longrightarrow 00:13:49.863$ You know the concept of herd immunity

NOTE Confidence: 0.78811973

00:13:49.863 --> 00:13:52.403 or community immunity as a way that

NOTE Confidence: 0.78811973

 $00:13:52.403 \longrightarrow 00:13:54.311$ we can you know collectively kind

NOTE Confidence: 0.78811973

00:13:54.379 --> 00:13:56.815 of get back towards normal life

NOTE Confidence: 0.78811973

00:13:56.815 --> 00:13:58.439 is usually fairly effective.

NOTE Confidence: 0.8382255

00:13:59.650 --> 00:14:02.006 Just very briefly, I'll jump in on that one,

NOTE Confidence: 0.8382255

 $00:14:02.010 \longrightarrow 00:14:02.793$ particularly around the

NOTE Confidence: 0.8382255

00:14:02.793 --> 00:14:03.837 Johnson and Johnson vaccine,

 $00:14:03.840 \longrightarrow 00:14:05.936$ and I'll put it in the chat momentarily.

NOTE Confidence: 0.8382255

 $00{:}14{:}05.940 \dashrightarrow 00{:}14{:}07.488$ That issue about about some Catholic

NOTE Confidence: 0.8382255

 $00:14:07.488 \longrightarrow 00:14:08.797$ Bishops that have raised concerns

NOTE Confidence: 0.8382255

 $00:14:08.797 \longrightarrow 00:14:10.653$ about the the cell lines in which the

NOTE Confidence: 0.8382255

 $00:14:10.653 \longrightarrow 00:14:12.120$ vaccines were tested has certainly

NOTE Confidence: 0.8382255

00:14:12.120 --> 00:14:14.123 created some confusion, but it's been.

NOTE Confidence: 0.8382255

 $00:14:14.123 \longrightarrow 00:14:16.349$ It's been quite clearly to the

NOTE Confidence: 0.8382255

 $00:14:16.349 \longrightarrow 00:14:18.437$ extent that you may hear this.

NOTE Confidence: 0.8382255

 $00:14:18.440 \longrightarrow 00:14:19.790$ Elsewhere that it's been quite

NOTE Confidence: 0.8382255

 $00:14:19.790 \longrightarrow 00:14:21.824$ clearly even by the by the Catholic

NOTE Confidence: 0.8382255

 $00{:}14{:}21.824 \dashrightarrow 00{:}14{:}23.088$ Bishops of Connecticut released

NOTE Confidence: 0.8382255

00:14:23.088 --> 00:14:25.339 a statement a few weeks ago from

NOTE Confidence: 0.8382255

00:14:25.339 --> 00:14:26.899 with respect to Catholic doctrine,

NOTE Confidence: 0.8382255

00:14:26.900 --> 00:14:27.494 Catholic teaching,

NOTE Confidence: 0.8382255

 $00:14:27.494 \longrightarrow 00:14:29.276$ saying that any of the three

NOTE Confidence: 0.8382255

 $00:14:29.276 \longrightarrow 00:14:30.756$ vaccines are acceptable in the

00:14:30.756 --> 00:14:32.418 Catholics in good faith can choose

NOTE Confidence: 0.8382255

00:14:32.418 --> 00:14:34.140 any of those available vaccines,

NOTE Confidence: 0.8382255

 $00:14:34.140 \longrightarrow 00:14:35.650$ so that's an important message

NOTE Confidence: 0.8382255

 $00:14:35.650 \longrightarrow 00:14:37.160$ that absolutely has has gotten,

NOTE Confidence: 0.8382255

00:14:37.160 --> 00:14:37.700 I think,

NOTE Confidence: 0.8382255

 $00:14:37.700 \longrightarrow 00:14:39.590$ confused by some of the voices from

NOTE Confidence: 0.8382255

 $00:14:39.590 \longrightarrow 00:14:41.687$ some Catholic leaders in that regard.

NOTE Confidence: 0.75429004

 $00:14:46.070 \longrightarrow 00:14:48.016$ Thanks, Jason, that's a really

NOTE Confidence: 0.75429004

 $00:14:48.016 \longrightarrow 00:14:50.350$ important important point to bring up.

NOTE Confidence: 0.75429004

 $00{:}14{:}50.350 \dashrightarrow 00{:}14{:}53.066$ I'm wondering if if Julia or Trisha,

NOTE Confidence: 0.75429004

 $00:14:53.070 \longrightarrow 00:14:55.020$ or certainly Camille Ouranian clinic.

NOTE Confidence: 0.75429004

 $00:14:55.020 \longrightarrow 00:14:57.645$ If anybody else has had heard anything

NOTE Confidence: 0.75429004

 $00{:}14{:}57.645 \dashrightarrow 00{:}15{:}00.457$ different from what Danny has already shared.

NOTE Confidence: 0.84292185

 $00{:}15{:}01.640 \dashrightarrow 00{:}15{:}03.670$ I just wanted to make one point.

NOTE Confidence: 0.84292185

00:15:03.670 --> 00:15:05.452 I think it's sort of interesting

 $00:15:05.452 \longrightarrow 00:15:07.246$ that you expect refugees who come

NOTE Confidence: 0.84292185

00:15:07.246 --> 00:15:08.890 some various degrees of you know,

NOTE Confidence: 0.84292185

 $00:15:08.890 \longrightarrow 00:15:10.630$ conflict an have often been persecuted

NOTE Confidence: 0.84292185

 $00{:}15{:}10.630 \to 00{:}15{:}12.660$ by their own governments, at least from

NOTE Confidence: 0.84292185

 $00:15:12.660 \longrightarrow 00:15:14.690$ from the refugees that I have seen.

NOTE Confidence: 0.84292185

00:15:14.690 --> 00:15:17.300 And it's probably not as broad as what Jenny,

NOTE Confidence: 0.84292185

 $00:15:17.300 \longrightarrow 00:15:19.620$ because Jenny works with a lot more people.

NOTE Confidence: 0.84292185

00:15:19.620 --> 00:15:21.070 I only see my patience,

NOTE Confidence: 0.84292185

 $00{:}15{:}21.070 \dashrightarrow 00{:}15{:}22.520$ but I haven't really encountered

NOTE Confidence: 0.84292185

 $00:15:22.520 \longrightarrow 00:15:23.390$ this mistrust necessarily.

NOTE Confidence: 0.84292185

 $00:15:23.390 \longrightarrow 00:15:25.310$ That, like it's a bad thing and that

NOTE Confidence: 0.84292185

 $00:15:25.310 \longrightarrow 00:15:27.184$ like there's something wrong about the

NOTE Confidence: 0.84292185

00:15:27.184 --> 00:15:29.188 vaccine being developed by the government,

NOTE Confidence: 0.84292185

 $00:15:29.190 \longrightarrow 00:15:31.526$ it's more like what Jenny was saying, like.

NOTE Confidence: 0.84292185

 $00:15:31.526 \longrightarrow 00:15:32.750$ We're fine, we're healthy,

NOTE Confidence: 0.84292185

 $00:15:32.750 \longrightarrow 00:15:34.703$ like why would we need this like

 $00:15:34.703 \longrightarrow 00:15:36.340$ we've been doing fine so long?

NOTE Confidence: 0.84292185

 $00:15:36.340 \longrightarrow 00:15:38.265$ I don't think we really need this.

NOTE Confidence: 0.84292185

 $00:15:38.270 \longrightarrow 00:15:38.987$ And in general,

NOTE Confidence: 0.84292185

 $00:15:38.987 \longrightarrow 00:15:40.660$ refugees do tend to be not that

NOTE Confidence: 0.84292185

00:15:40.714 --> 00:15:42.138 great about preventive care,

NOTE Confidence: 0.84292185

00:15:42.140 --> 00:15:43.240 even though they usually majority

NOTE Confidence: 0.84292185

00:15:43.240 --> 00:15:44.788 of them have had their childhood

NOTE Confidence: 0.84292185

 $00:15:44.788 \longrightarrow 00:15:45.997$ vaccinations except travelling.

NOTE Confidence: 0.84292185

00:15:46.000 --> 00:15:46.828 Typically they're not.

NOTE Confidence: 0.84292185

00:15:46.828 --> 00:15:47.930 They're not, you know,

NOTE Confidence: 0.84292185

 $00:15:47.930 \longrightarrow 00:15:49.305$ the best for preventive care,

NOTE Confidence: 0.84292185

 $00:15:49.310 \longrightarrow 00:15:50.966$ and I feel it falls more.

NOTE Confidence: 0.84292185

 $00{:}15{:}50.970 \dashrightarrow 00{:}15{:}52.074$ Perhaps under that umbrella.

NOTE Confidence: 0.84292185

 $00:15:52.074 \longrightarrow 00:15:53.178$ And like Britta said,

NOTE Confidence: 0.84292185

 $00:15:53.180 \longrightarrow 00:15:55.021$ like maybe lack of sort of understanding

00:15:55.021 --> 00:15:56.717 of what sort of population helped

NOTE Confidence: 0.84292185

00:15:56.717 --> 00:15:58.415 us and what like herd immunity's

NOTE Confidence: 0.84292185

 $00:15:58.415 \longrightarrow 00:15:59.799$ and those kind of things.

NOTE Confidence: 0.84292185

 $00:15:59.800 \longrightarrow 00:16:01.865$ It's just interesting to me that those

NOTE Confidence: 0.84292185

 $00:16:01.865 \dashrightarrow 00:16:04.048$ are the barriers more than I think like.

NOTE Confidence: 0.84292185

00:16:04.050 --> 00:16:06.370 Specific mistrust of what's happening.

NOTE Confidence: 0.87666035

 $00:16:09.180 \longrightarrow 00:16:10.808$ I would agree with any.

NOTE Confidence: 0.87666035

00:16:10.808 --> 00:16:13.090 I haven't had a lot of mistrust,

NOTE Confidence: 0.87666035

 $00:16:13.090 \longrightarrow 00:16:15.700$ but I think like you know we have such a

NOTE Confidence: 0.87666035

 $00:16:15.765 \longrightarrow 00:16:18.320$ variety of families coming in with ideas

NOTE Confidence: 0.87666035

 $00:16:18.320 \longrightarrow 00:16:20.920$ that we haven't been able to pinpoint.

NOTE Confidence: 0.87666035

 $00:16:20.920 \longrightarrow 00:16:23.638$ Any you know, I don't think we can make

NOTE Confidence: 0.87666035

 $00:16:23.638 \longrightarrow 00:16:25.148$ generalizations about the population.

NOTE Confidence: 0.87666035

 $00:16:25.150 \longrightarrow 00:16:27.118$ We've had families who very excited

NOTE Confidence: 0.87666035

 $00:16:27.118 \longrightarrow 00:16:29.923$ and feel that it's a privilege to have

NOTE Confidence: 0.87666035

 $00:16:29.923 \longrightarrow 00:16:32.071$ American health care that they wouldn't

00:16:32.136 --> 00:16:34.647 be having at home that they have access to

NOTE Confidence: 0.87666035

 $00{:}16{:}34.647 {\:\dashrightarrow\:} 00{:}16{:}36.880$ all these things here that they wouldn't

NOTE Confidence: 0.87666035

 $00:16:36.880 \longrightarrow 00:16:39.748$ have at home to families who once again.

NOTE Confidence: 0.87666035

00:16:39.750 --> 00:16:42.375 I don't want to get anything that

NOTE Confidence: 0.87666035

 $00:16:42.375 \longrightarrow 00:16:43.826$ isn't absolutely necessary and

NOTE Confidence: 0.87666035

 $00:16:43.826 \longrightarrow 00:16:45.126$ and I think there is.

NOTE Confidence: 0.87666035

 $00:16:45.130 \longrightarrow 00:16:46.506$ As everyone has said,

NOTE Confidence: 0.87666035

 $00:16:46.506 \longrightarrow 00:16:48.226$ a lot of misunderstanding of

NOTE Confidence: 0.87666035

 $00:16:48.226 \longrightarrow 00:16:50.169$ you know that they they are.

NOTE Confidence: 0.87666035

00:16:50.170 --> 00:16:52.249 They are healthy and that they don't

NOTE Confidence: 0.87666035

 $00:16:52.249 \longrightarrow 00:16:54.529$ need to to have the vaccination.

NOTE Confidence: 0.87666035

 $00:16:54.530 \longrightarrow 00:16:56.966$ But I would fall away from making

NOTE Confidence: 0.87666035

 $00{:}16{:}56.966 {\:{\mbox{--}}}{\:{\mbox{-}}} 00{:}16{:}58.696$ any generalizations because I feel

NOTE Confidence: 0.87666035

00:16:58.696 --> 00:17:00.246 every family is very different.

NOTE Confidence: 0.87666035

 $00:17:00.250 \longrightarrow 00:17:01.930$ When I've been having conversations

 $00:17:01.930 \longrightarrow 00:17:03.610$ with them about the vaccines.

NOTE Confidence: 0.84043014

 $00:17:08.350 \longrightarrow 00:17:10.240$ Great, thank you so much chamelon honey.

NOTE Confidence: 0.84043014

 $00:17:10.240 \longrightarrow 00:17:12.046$ I see that we are getting to

NOTE Confidence: 0.84043014

 $00:17:12.046 \longrightarrow 00:17:14.017$ the end of our of our times.

NOTE Confidence: 0.84043014

00:17:14.020 --> 00:17:15.749 I just wondering if any of our

NOTE Confidence: 0.84043014

 $00{:}17{:}15.749 \dashrightarrow 00{:}17{:}17.137$ panelists had any final comments

NOTE Confidence: 0.84043014

00:17:17.137 --> 00:17:19.195 that you wanted to share with the

NOTE Confidence: 0.84043014

 $00{:}17{:}19.195 \dashrightarrow 00{:}17{:}21.037$ audience before we we end our session.

NOTE Confidence: 0.871704

 $00{:}17{:}22.040 \dashrightarrow 00{:}17{:}25.715$ Yeah, I just wanted to note that.

NOTE Confidence: 0.871704

 $00:17:25.720 \longrightarrow 00:17:27.754$ You know so much for the

NOTE Confidence: 0.871704

 $00{:}17{:}27.754 \dashrightarrow 00{:}17{:}29.110$ refugee of the interventions,

NOTE Confidence: 0.871704

 $00:17:29.110 \longrightarrow 00:17:30.805$ health interventions for our various

NOTE Confidence: 0.871704

 $00:17:30.805 \longrightarrow 00:17:32.500$ refugee populations really turn on.

NOTE Confidence: 0.871704

00:17:32.500 --> 00:17:33.188 Volunteer support,

NOTE Confidence: 0.871704

 $00:17:33.188 \longrightarrow 00:17:35.596$ making up for gaps within Systems an

NOTE Confidence: 0.871704

 $00:17:35.596 \longrightarrow 00:17:37.877$ all sorts of systems failures that

 $00:17:37.877 \longrightarrow 00:17:40.092$ an incredible cadre of volunteers and

NOTE Confidence: 0.871704

 $00:17:40.092 \longrightarrow 00:17:41.808$ dedicated staff find a work around

NOTE Confidence: 0.871704

 $00:17:41.808 \longrightarrow 00:17:44.365$ for and it doesn't take that much to

NOTE Confidence: 0.871704

 $00:17:44.365 \longrightarrow 00:17:46.060$ disrupt these very delicate systems.

NOTE Confidence: 0.871704

 $00{:}17{:}46.060 \dashrightarrow 00{:}17{:}48.676$ And then people spend a lot of time

NOTE Confidence: 0.871704

 $00:17:48.676 \longrightarrow 00:17:51.147$ than trying to find new work arounds.

NOTE Confidence: 0.871704

00:17:51.150 --> 00:17:52.794 And I think an ongoing question

NOTE Confidence: 0.871704

00:17:52.794 --> 00:17:55.067 that I have for this particular

NOTE Confidence: 0.871704

00:17:55.067 --> 00:17:56.177 vulnerable population.

NOTE Confidence: 0.871704

 $00:17:56.180 \longrightarrow 00:17:58.180$ Then I'm sure for others,

NOTE Confidence: 0.871704

 $00{:}17{:}58.180 \dashrightarrow 00{:}18{:}00.908$ is what can we do to systematize some

NOTE Confidence: 0.871704

 $00{:}18{:}00.908 \dashrightarrow 00{:}18{:}03.489$ of these will always need creative

NOTE Confidence: 0.871704

 $00{:}18{:}03.489 \dashrightarrow 00{:}18{:}05.759$ problem solving in this work,

NOTE Confidence: 0.871704

 $00:18:05.760 \longrightarrow 00:18:08.410$ but the it's.

NOTE Confidence: 0.871704

 $00:18:08.410 \longrightarrow 00:18:10.348$ I feel like we're not truly

 $00:18:10.348 \longrightarrow 00:18:11.640$ addressing these health disparities

NOTE Confidence: 0.871704

 $00:18:11.691 \longrightarrow 00:18:13.276$ when they fundamentally turn on

NOTE Confidence: 0.871704

 $00:18:13.276 \longrightarrow 00:18:14.861$ people going above and beyond,

NOTE Confidence: 0.871704

 $00:18:14.870 \longrightarrow 00:18:16.856$ or thinking about how to extend

NOTE Confidence: 0.871704

 $00:18:16.856 \longrightarrow 00:18:18.837$ themselves in ways that seems to

NOTE Confidence: 0.871704

00:18:18.837 --> 00:18:20.902 me like a very precarious way of

NOTE Confidence: 0.871704

 $00:18:20.902 \longrightarrow 00:18:22.947$ getting access to basic health care.

NOTE Confidence: 0.871704

 $00:18:22.950 \longrightarrow 00:18:24.560$ For a lot of people,

NOTE Confidence: 0.871704

 $00{:}18{:}24.560 \dashrightarrow 00{:}18{:}26.175$ although
 although I see Jennifer

NOTE Confidence: 0.871704

00:18:26.175 --> 00:18:27.790 I see Jennifer pondering that,

NOTE Confidence: 0.871704

 $00:18:27.790 \longrightarrow 00:18:30.366$ maybe that's just the nature of the work.

NOTE Confidence: 0.871704

 $00:18:30.370 \longrightarrow 00:18:32.638$ I I don't know what people think.

NOTE Confidence: 0.85233414

 $00:18:37.520 \longrightarrow 00:18:41.180$ I, I think that's a very fitting way to sort

NOTE Confidence: 0.85233414

 $00:18:41.265 \longrightarrow 00:18:44.753$ of move towards the end of the discussion.

NOTE Confidence: 0.85233414

00:18:44.760 --> 00:18:46.364 Why? I think absolutely,

NOTE Confidence: 0.85233414

00:18:46.364 --> 00:18:48.774 I mean, refugees have just one

 $00:18:48.774 \longrightarrow 00:18:50.378$ group of vulnerable people.

NOTE Confidence: 0.85233414

 $00:18:50.380 \longrightarrow 00:18:53.222$ There are so many other groups of

NOTE Confidence: 0.85233414

00:18:53.222 --> 00:18:55.594 vulnerable people that are, you know,

NOTE Confidence: 0.85233414

 $00:18:55.594 \longrightarrow 00:18:58.338$ in very fragile health care systems that

NOTE Confidence: 0.85233414

 $00:18:58.338 \longrightarrow 00:19:01.634$ you know when there is something like this.

NOTE Confidence: 0.85233414

 $00:19:01.640 \longrightarrow 00:19:02.861$ Like the pandemic,

NOTE Confidence: 0.85233414

 $00:19:02.861 \longrightarrow 00:19:05.710$ everything is exacerbated and comes to light.

NOTE Confidence: 0.85233414

00:19:05.710 --> 00:19:07.888 But they are always there and

NOTE Confidence: 0.85233414

 $00:19:07.888 \longrightarrow 00:19:10.022$ always underlying the work we do

NOTE Confidence: 0.85233414

 $00:19:10.022 \longrightarrow 00:19:11.870$ and where exactly what you said.

NOTE Confidence: 0.85233414

00:19:11.870 --> 00:19:13.234 We're always overextending ourselves

NOTE Confidence: 0.85233414

 $00:19:13.234 \longrightarrow 00:19:14.939$ trying to individually create solutions,

NOTE Confidence: 0.85233414

 $00:19:14.940 \dashrightarrow 00:19:18.360$ but I think a less on we should take away not.

NOTE Confidence: 0.85233414

 $00{:}19{:}18.360 \dashrightarrow 00{:}19{:}19.700$ I think every body here,

NOTE Confidence: 0.85233414

 $00:19:19.700 \longrightarrow 00:19:22.130$ I think is well aware of this,

 $00:19:22.130 \longrightarrow 00:19:23.758$ but a lesson just.

NOTE Confidence: 0.85233414

 $00:19:23.758 \longrightarrow 00:19:25.793$ For for the larger systems,

NOTE Confidence: 0.85233414

 $00:19:25.800 \longrightarrow 00:19:26.908$ I think is just.

NOTE Confidence: 0.85233414

00:19:26.908 --> 00:19:28.570 How can we improve this going

NOTE Confidence: 0.85233414

 $00:19:28.638 \longrightarrow 00:19:30.372$ forward all the time and not

NOTE Confidence: 0.85233414

 $00:19:30.372 \longrightarrow 00:19:32.030$ just when there's a pandemic

NOTE Confidence: 0.85233414

 $00:19:32.030 \longrightarrow 00:19:33.766$ and when there's emergency?

NOTE Confidence: 0.85233414

 $00:19:33.770 \longrightarrow 00:19:35.050$ You know medical care.

NOTE Confidence: 0.8860071

00:19:37.170 --> 00:19:38.898 That's a great point on it,

NOTE Confidence: 0.8860071

 $00:19:38.900 \longrightarrow 00:19:41.196$ so maybe what we can end with is,

NOTE Confidence: 0.8860071

 $00{:}19{:}41.200 \dashrightarrow 00{:}19{:}43.280$ you know, the fact that we have so

NOTE Confidence: 0.8860071

 $00:19:43.280 \longrightarrow 00:19:45.257$ many folks like like our panelists here

NOTE Confidence: 0.8860071

 $00:19:45.257 \longrightarrow 00:19:47.961$ today as well as so many of the people

NOTE Confidence: 0.8860071

00:19:47.961 --> 00:19:49.839 who joined us for the conversation.

NOTE Confidence: 0.8860071

 $00:19:49.840 \longrightarrow 00:19:50.992$ Who really are thinking

NOTE Confidence: 0.8860071

 $00:19:50.992 \longrightarrow 00:19:52.144$ deeply about this community?

 $00:19:52.150 \longrightarrow 00:19:53.620$ And then there are others who

NOTE Confidence: 0.8860071

00:19:53.620 --> 00:19:54.976 are thinking deeply about other

NOTE Confidence: 0.8860071

 $00:19:54.976 \longrightarrow 00:19:56.280$ communities that are marginalized

NOTE Confidence: 0.8860071

 $00:19:56.280 \longrightarrow 00:19:57.910$ and vulnerable in different ways.

NOTE Confidence: 0.8860071

 $00:19:57.910 \longrightarrow 00:20:00.088$ And so as long as there are people who

NOTE Confidence: 0.8860071

 $00{:}20{:}00.088 \dashrightarrow 00{:}20{:}02.195$ are continuing to be invested in in

NOTE Confidence: 0.8860071

 $00:20:02.195 \longrightarrow 00:20:04.151$ making sure that our most vulnerable

NOTE Confidence: 0.8860071

 $00:20:04.151 \longrightarrow 00:20:06.573$ are getting the access that they need.

NOTE Confidence: 0.8860071

 $00:20:06.580 \longrightarrow 00:20:07.513$ You know, then.

NOTE Confidence: 0.8860071

 $00:20:07.513 \longrightarrow 00:20:08.446$ Then we can.

NOTE Confidence: 0.8860071

 $00:20:08.450 \longrightarrow 00:20:10.781$ Then we can continue to work towards

NOTE Confidence: 0.8860071

00:20:10.781 --> 00:20:12.681 actually fixing this system so we

NOTE Confidence: 0.8860071

00:20:12.681 --> 00:20:14.355 don't need to keep doing this,

NOTE Confidence: 0.8860071

 $00:20:14.360 \longrightarrow 00:20:14.888$ so alright.

NOTE Confidence: 0.8860071

00:20:14.888 --> 00:20:17.425 So with that I will thank all of our

 $00:20:17.425 \longrightarrow 00:20:19.945$ panelists again for joining us this evening.

NOTE Confidence: 0.8860071

 $00:20:19.950 \longrightarrow 00:20:21.510$ This was a wonderful session.

NOTE Confidence: 0.8860071

 $00:20:21.510 \longrightarrow 00:20:23.596$ So glad that we were able to

NOTE Confidence: 0.8860071

 $00:20:23.596 \longrightarrow 00:20:24.930$ do this this year.

NOTE Confidence: 0.8860071

 $00:20:24.930 \longrightarrow 00:20:26.890$ And thank everybody who joined us from

NOTE Confidence: 0.8860071

 $00:20:26.890 \longrightarrow 00:20:29.277$ from home or whatever wherever you were.

NOTE Confidence: 0.8860071

 $00:20:29.280 \longrightarrow 00:20:31.674$ And for my final slide just to show thank

NOTE Confidence: 0.8860071

 $00:20:31.674 \longrightarrow 00:20:34.257$ you so much for joining this conversation.

NOTE Confidence: 0.8860071

00:20:34.260 --> 00:20:36.748 We look forward to seeing you next year,

NOTE Confidence: 0.8860071

 $00:20:36.750 \longrightarrow 00:20:38.400$ hopefully with an even bigger.

NOTE Confidence: 0.8860071

 $00:20:38.400 \longrightarrow 00:20:39.560$ Celebration and maybe even

NOTE Confidence: 0.8860071

 $00:20:39.560 \longrightarrow 00:20:41.010$ in person at that point.

NOTE Confidence: 0.8860071

00:20:41.010 --> 00:20:42.882 So thanks so much everybody take

NOTE Confidence: 0.8860071

 $00:20:42.882 \longrightarrow 00:20:45.375$ care and have a wonderful evening.
