NOTE duration: "00:02:57.1520000"

NOTE recognizability:0.861

NOTE language:en-us

NOTE Confidence: 0.87128174

00:00:00.000 --> 00:00:03.094 As creative leaders in medicine and science,

NOTE Confidence: 0.87128174

 $00:00:03.100 \longrightarrow 00:00:05.380$ we constantly push boundaries to advance

NOTE Confidence: 0.87128174

 $00:00:05.380 \longrightarrow 00:00:07.669$ medicine for the benefit of humanity.

NOTE Confidence: 0.87128174

00:00:07.670 --> 00:00:08.954 Through groundbreaking research,

NOTE Confidence: 0.87128174

 $00:00:08.954 \longrightarrow 00:00:10.666$ we're unlocking the complexities

NOTE Confidence: 0.87128174

 $00:00:10.666 \longrightarrow 00:00:12.999$ of the human brain and its vast

NOTE Confidence: 0.87128174

 $00:00:13.000 \longrightarrow 00:00:15.574$ neural networks. We're trying to impact

NOTE Confidence: 0.87128174

 $00:00:15.574 \dashrightarrow 00:00:18.717$ lives every day when we come to the lab.

NOTE Confidence: 0.87128174

 $00{:}00{:}18.720 \dashrightarrow 00{:}00{:}21.387$ The scientific problems of today can't be

NOTE Confidence: 0.87128174

 $00{:}00{:}21.390 \dashrightarrow 00{:}00{:}22.902$ answered from one perspective.

NOTE Confidence: 0.87128174

 $00{:}00{:}22.902 --> 00{:}00{:}24.414$ Your School of Medicine

NOTE Confidence: 0.87128174

 $00:00:24.414 \longrightarrow 00:00:26.338$ is it's my favorite place,

NOTE Confidence: 0.87128174

 $00:00:26.340 \longrightarrow 00:00:28.700$ creates the opportunity and creates

NOTE Confidence: 0.87128174

 $00:00:28.700 \longrightarrow 00:00:30.588$ the environment for enquiry.

NOTE Confidence: 0.87128174

 $00{:}00{:}30.590 \dashrightarrow 00{:}00{:}33.410$ And for for people to ask questions. One

NOTE Confidence: 0.8465357

 $00:00:33.410 \longrightarrow 00:00:35.426$ of the things that that I've realized

NOTE Confidence: 0.8465357

 $00:00:35.426 \longrightarrow 00:00:37.626$ that as a clinical psychologist I

NOTE Confidence: 0.8465357

00:00:37.626 --> 00:00:39.736 have certain kinds of training,

NOTE Confidence: 0.8465357

00:00:39.740 --> 00:00:42.204 but when I combine that with people

NOTE Confidence: 0.8465357

00:00:42.204 --> 00:00:43.970 with different expertise, we can

NOTE Confidence: 0.8465357

00:00:43.970 --> 00:00:45.023 ask fundamentally different

NOTE Confidence: 0.8465357

 $00:00:45.023 \longrightarrow 00:00:46.076$ kinds of questions.

NOTE Confidence: 0.8465357

00:00:46.080 --> 00:00:48.537 So you see people from clinical departments,

NOTE Confidence: 0.8465357

00:00:48.540 --> 00:00:49.581 basic science departments,

NOTE Confidence: 0.8465357

00:00:49.581 --> 00:00:51.316 putting their heads together to

NOTE Confidence: 0.8465357

 $00{:}00{:}51.316 \dashrightarrow 00{:}00{:}53.120$ tackle one single problem regardless

NOTE Confidence: 0.8465357

 $00:00:53.120 \longrightarrow 00:00:55.930$ of of where they come from. And I

NOTE Confidence: 0.8465357

 $00:00:55.930 \longrightarrow 00:00:57.892$ think that diversity of thoughts and

NOTE Confidence: 0.8465357

 $00:00:57.892 \longrightarrow 00:01:00.160$ also of profession is pretty powerful.

NOTE Confidence: 0.8674383

 $00{:}01{:}00.670 --> 00{:}01{:}02.777$ A study that we lead here has

NOTE Confidence: 0.8674383

 $00:01:02.777 \longrightarrow 00:01:04.961$ actually led to the FDA's first

NOTE Confidence: 0.8674383

 $00:01:04.961 \longrightarrow 00:01:06.971$ investment into biomarkers for autism

NOTE Confidence: 0.8674383

00:01:06.971 --> 00:01:09.589 or for any psychiatric condition.

NOTE Confidence: 0.8674383

 $00:01:09.590 \longrightarrow 00:01:11.750$ So this is really literally an

NOTE Confidence: 0.8674383

 $00:01:11.750 \longrightarrow 00:01:13.190$ unprecedented milestone for the

NOTE Confidence: 0.8674383

00:01:13.257 --> 00:01:15.407 field of psychiatry and neuroscience.

NOTE Confidence: 0.8674383

00:01:15.410 --> 00:01:17.738 We have you know at Yale,

NOTE Confidence: 0.8674383

 $00{:}01{:}17.740 \dashrightarrow 00{:}01{:}20.068$ you know trials for Parkinson's disease.

NOTE Confidence: 0.8674383

 $00{:}01{:}20.070 \dashrightarrow 00{:}01{:}22.702$ We also have the same in Alzheimer's

NOTE Confidence: 0.8674383

 $00:01:22.702 \longrightarrow 00:01:25.109$ disease where we have new targets,

NOTE Confidence: 0.8674383

 $00:01:25.110 \longrightarrow 00:01:27.826$ new drugs, we have large clinical trials,

NOTE Confidence: 0.8674383

 $00:01:27.830 \longrightarrow 00:01:30.480$ multi centre clinical trials.

NOTE Confidence: 0.8674383

 $00:01:30.480 \longrightarrow 00:01:33.470$ In stroke, that has been

NOTE Confidence: 0.8674383

 $00:01:33.470 \longrightarrow 00:01:35.862$ ongoing in autism research.

NOTE Confidence: 0.8674383

 $00:01:35.870 \longrightarrow 00:01:37.976$ In children and in neurodiverse populations.

NOTE Confidence: 0.8674383

 $00:01:37.980 \longrightarrow 00:01:40.339$ In epilepsy, the same thing can be

NOTE Confidence: 0.8674383

 $00:01:40.339 \longrightarrow 00:01:42.426$ said in psychiatry where we've the

NOTE Confidence: 0.8674383

 $00:01:42.426 \longrightarrow 00:01:44.448$ the the ketamine was founded here

NOTE Confidence: 0.8674383

 $00:01:44.448 \longrightarrow 00:01:46.695$ and now it's in various clinical

NOTE Confidence: 0.8674383

00:01:46.695 --> 00:01:48.892 trials for depression and for post

NOTE Confidence: 0.8674383

 $00{:}01{:}48.892 \dashrightarrow 00{:}01{:}50.300$ traumatic stress disorder. And

NOTE Confidence: 0.86209655

 $00:01:50.300 \longrightarrow 00:01:52.940$ one of the problems that we want to

NOTE Confidence: 0.86209655

 $00{:}01{:}52.940 \dashrightarrow 00{:}01{:}55.578$ tackle is teen mental health and just

NOTE Confidence: 0.86209655

 $00:01:55.578 \longrightarrow 00:01:58.550$ looking at over the last few years it's

NOTE Confidence: 0.86209655

 $00{:}01{:}58.550 \dashrightarrow 00{:}02{:}01.570$ it's at this all time high one of the

NOTE Confidence: 0.86209655

 $00:02:01.570 \longrightarrow 00:02:03.875$ exciting initiatives at the School

NOTE Confidence: 0.86209655

 $00{:}02{:}03.875 \dashrightarrow 00{:}02{:}06.092$ of Medicine. Is a centre for

NOTE Confidence: 0.86209655

 $00:02:06.092 \longrightarrow 00:02:07.707$ brain and mind health experts.

NOTE Confidence: 0.86209655

 $00:02:07.710 \longrightarrow 00:02:10.580$ On all different kinds of conditions related

NOTE Confidence: 0.86209655

 $00:02:10.580 \longrightarrow 00:02:13.620$ to the brain and related to the mind,

NOTE Confidence: 0.86209655

 $00:02:13.620 \longrightarrow 00:02:15.590$ from psychiatric conditions to stroke,

NOTE Confidence: 0.86209655

 $00{:}02{:}15.590 \dashrightarrow 00{:}02{:}17.560$ share ideas that aren't limited

NOTE Confidence: 0.86209655

 $00:02:17.560 \longrightarrow 00:02:19.136$ by their medical training,

NOTE Confidence: 0.86209655

00:02:19.140 --> 00:02:20.864 by their scientific background,

NOTE Confidence: 0.86209655

 $00:02:20.864 \longrightarrow 00:02:24.260$ by the condition that they study so the Yale

NOTE Confidence: 0.87956685

00:02:24.260 --> 00:02:27.400 School of Medicine. Cultivates

NOTE Confidence: 0.87956685

 $00:02:27.400 \longrightarrow 00:02:30.200$ innovators that are the cusp of the

NOTE Confidence: 0.87956685

 $00:02:30.200 \longrightarrow 00:02:31.800$ next breakthrough. Philanthropy and

NOTE Confidence: 0.8496604

 $00:02:31.800 \longrightarrow 00:02:33.800$ science go hand in hand,

NOTE Confidence: 0.8496604

 $00{:}02{:}33.800 \dashrightarrow 00{:}02{:}35.800$ and So what philanthropy lets

NOTE Confidence: 0.8496604

 $00:02:35.800 \longrightarrow 00:02:40.743$ us do is to be bold. It lets us take risks.

NOTE Confidence: 0.8496604

 $00:02:40.743 \longrightarrow 00:02:43.980$ It lets us do studies that hold promise.

NOTE Confidence: 0.8309937

 $00{:}02{:}43.980 \dashrightarrow 00{:}02{:}46.488$ Learn how your gift can support

NOTE Confidence: 0.8309937

 $00:02:46.488 \longrightarrow 00:02:48.587$ vital and innovative projects that

NOTE Confidence: 0.8309937

 $00:02:48.587 \longrightarrow 00:02:51.044$ help us learn more about the brains,

NOTE Confidence: 0.8309937

 $00{:}02{:}51.050 \dashrightarrow 00{:}02{:}52.622$ myriad relationships and connections.

NOTE Confidence: 0.8309937

 $00{:}02{:}52.622 \dashrightarrow 00{:}02{:}54.980$ Connect with the Development Officer today.
